Responsible and Concerned Agencies and Interested Parties

The Mt. San Antonio Community College District (District) is the Lead Agency and has completed the Subsequent Project and Program Final Environmental Impact Report (Final EIR) for the Mt. San Antonio College 2015 Facilities Master Plan Update and Physical Education Projects. The CEQA documentation consists of three volumes: Volume 1: Draft EIR, Volume 2: Draft EIR Appendices and Volume 3: Response to Comments. The Final EIR evaluates the environmental impacts of buildout of the 2015 Facilities Master Plan Update (FMPU) in a Program EIR and the Physical Education Project (Phase 1, 2) in a Project EIR. The 420-acre campus is located in the City of Walnut, County of Los Angeles, near Grand Avenue and Temple Avenue.

The 2015 FMPU Draft EIR was circulated for a 45-day public review period from June 13 to July 28, 2016. However, the public hearing date was not identified in the Notice of Completion. The Board of Trustees will consider certifying the Final EIR and adopting a Statement of Facts and Findings, a Statement of Overriding Consideration, and the Mitigation Monitoring Program. A Statement of Overriding Considerations is proposed for land use/planning, traffic, and historic resource impacts.

All CEQA documents related to the project are posted on the College's website at:

The documents may also be viewed at Building 46, Facilities Planning & Management, during normal business hours.
