As part of the Program Review process, and to meet Mt. San Antonio College’s goals to make data driven decisions, a Community Perception Survey was mailed to 773 community leaders in April 2001 (see Appendix A). Of the surveys mailed, 160 surveys were returned or 21 percent. The purpose of the survey was to collect perception data about Mt. SAC from community leaders.

Questions on the survey ranged from public perception on Mt. SAC’s collateral material to perceptions about public education. Three questions were replicated from the 2000 California Community College Survey conducted by Price Research and based on telephone calls to 1,625 people. Additionally, one question related to a future bond measure was asked. Other questions were taken from a Mt. SAC Public Perception Survey conducted in July 2000.

Results from the survey revealed:
- The quality and frequency of promotional materials received by those surveyed were rated very high.
- Some 70% had knowledge about Mt. SAC programs and services.
- 57% rated good to excellent the College’s efforts to inform the community of its needs.
- Many visited the campus during the past year to attend class, a cultural event, or special event.
- More than 50% of those responding or their family members attended Mt. SAC.
- Over 50% feel the College is under-funded.
- 78% would support a third bond measure effort.
- 67% think Mt. SAC has an excellent state and national reputation (see pie chart NB)

The response rate was 21% (160 / 773), which translates into a margin of error of +/-8% with a 95% confidence interval. Considering the major findings were not ambiguous, this margin of error is not of great concern. Also, comparison of data from this study to that from other internal and external studies typically yielded similar findings indicating that the current margin of error is not necessarily having a strong impact on our findings.

NB Results for all pie charts list the “number of respondents/percentage of respondents (e.g., 107/67%). The “/” is used only to separate these two numbers.
The project allows us to “take the pulse” of the community, related to their perception of Mt. San Antonio College. By asking questions from past surveys in key areas, we can monitor changes in perception. We can also use the results to measure the success of the collateral material we publish and to make any modifications necessary.

A direct mail piece, even unanswered, is a connection with the community. Reading and answering the survey also allows us to plant key messages with the public related to our quality initiatives and our comprehensive mission.

Questions related to external national and state surveys allow us to test local perceptions against other, larger, data sets. For example, people statewide and locally value a college education but feel families do not save enough to pay for their children to attend college.

### Database

The population included local businesses, legislators, community members, city council representatives, city managers, media representatives, representatives from Mt. SAC’s Program Advisory Committees, local superintendents of school districts and their board members, assistant superintendents, high school counselors, donors, Mt. SAC foundation directors, city economic or redevelopment directors, executive directors and presidents of local chambers of commerce, high school liaisons with Mt. SAC, and local university representatives.

### Demographics

The following is a demographic profile of the respondents:
- Majority had lived in the community for five or more years
- Almost 60% live within the Mt. SAC district
- 68% were White, 17% were Hispanic/Latino
- 24% held a school district administration position (Appendix C)

Overall, the survey revealed that the community views Mt. SAC in a positive light.

Four questions related to what programs the College should focus on in the next 20 years were asked. These questions also were part of...
Mt. SAC’s 2000 Community Survey\(^2\). The comparison results are as follows:

<table>
<thead>
<tr>
<th>Should Mt. SAC focus on these in the next 20 years? (Only Strongly Agree responses)</th>
<th>2000(^2) (n=60)</th>
<th>2001 (n=160)</th>
</tr>
</thead>
<tbody>
<tr>
<td>Prepare students for proficiency with new technology</td>
<td>85%</td>
<td>65%</td>
</tr>
<tr>
<td>Find new ways to provide financial resources needed to maintain state-of-the-art college facilities</td>
<td>55%</td>
<td>46%</td>
</tr>
<tr>
<td>Provide new and updated buildings, state-of-the-art equipment and new teaching methods</td>
<td>48%</td>
<td>36%</td>
</tr>
<tr>
<td>Increase College’s outreach to the community in educational, cultural, recreational, and social programs</td>
<td>30%</td>
<td>43%</td>
</tr>
</tbody>
</table>

The survey also included one question from a statewide survey conducted in 2000 by Price Research for the California Community Colleges\(^3\). In both the Price Survey and the current one, over 50\% believe the College system is under-funded (see table).

<table>
<thead>
<tr>
<th>Based on what you know or what you have heard compared to other state educational systems, would you say that the college system is… (1) under-funded, (2) adequately funded, or (3) over-funded</th>
</tr>
</thead>
<tbody>
<tr>
<td>California State Survey(^3)</td>
</tr>
<tr>
<td>54% say it is under-funded</td>
</tr>
</tbody>
</table>

---

---

**Marketing**

Other results from the survey indicated the following:

- 92\% thought the quality of Mt. SAC’s publications were good to excellent
- 79\% thought that the frequency in which they received materials from Mt. SAC was good to excellent
- 62\% thought the College’s marketing efforts, when compared to other Colleges in the area, was good to excellent
- 52\% thought the coverage of Mt. SAC activities in the local media was good to excellent
- 38\% thought the visibility of the staff at the community/civic functions in their town was good to excellent

**Knowledge of Mt. SAC**

Respondents indicated, by 67\%, that Mt. SAC has an excellent state and national reputation (see pie chart on page 3).

The following pie charts (see next two pages), indicate the level of knowledge they have of Mt. SAC with respect to its:

- Programs/services,
- Partnerships with business and industry and
- Partnerships with other educational providers.

Their level of knowledge was highest with program/services that Mt. SAC offers – representing a 71\% good to excellent knowledge level. Their level of knowledge with regards to other partnerships was somewhat less – 42 to 47\% indicated that their level of knowledge was good to excellent with respect to Mt. SAC’s partnerships with business and industry as well as other educational providers.
Knowledge you have about Mt. SAC and its programs/services.

Visiting Mt. SAC
Respondents indicated that they had visited Mt. SAC in a number of different ways and for different reasons:

- 39% indicated that they had visited the College’s web site
- 64% had visited the campus in 1999-2000 to attend an event or class
- Of those who visited the campus for an event, 37% did so for a cultural outing (see Appendix B).

Perspectives on Education
Respondents were asked three questions related to their perspective on different aspects of education.

- We should not allow the price of a college education to keep students who are qualified and motivated to go to college from doing so. (79% strongly agree)
- A college education has become as important as a high school diploma used to be. (72% strongly agree)
- Most families today do a good job of saving for their children’s college education. (78% strongly DISagree to DISagree)

The above same questions were asked in a national study by the National Center for Public Policy and Higher Education (NCPPHE). The NCPPHE results are comparable to findings from the present study (see table).

<table>

Connection with the College
Some respondents had attended the College or had family members who had or would be attending the College:

- 58% said that themselves or their family members had attended the college and
- Within the next five years:
  - Respondents indicated that themselves or members of their family would attend Mt. SAC for:
    - Credit courses (30%)
    - Lifelong learning (non-credit) courses (30%)
  - 52% indicated that either themselves or a family member would attend Mt. SAC for cultural arts events/activities

Thinking in the Future
Over the next 20 years, 61% of the respondents thought that it is important for Mt. SAC to provide more on-line classes (see pie chart).

Important: Providing more on-line classes

Bond
Respondents were asked one question related to a bond measure. They were asked if they would support a bond measure for Mt. SAC. Over 77% indicated that it was very likely or likely that they would support a bond measure (see pie chart). The specific wording of the question was, “Given that Mt. SAC needs to accommodate an additional 7,000 credit students in the next 10 years, how likely would you be to support a local bond measure to renovate, upgrade and provide new classrooms and learning support space?”

Would you support a bond measure for Mt. SAC?

Two Mt. SAC Public Perception Surveys were completed in 2000, one was a telemarketing survey of 297 high propensity voters conducted in February and March of 2000, and the other was a paper survey to 250 area residents conducted in April-May of 2000. In 1997, a telephone survey was conducted by John Fairbank to assess voter support for Mt. SAC’s bond effort. Some of the questions from these surveys were used in the current study. The comparisons are as follows:

<table>
<thead>
<tr>

\(^7\) Wording was different in 2001: Do you think that there are any major public relations or community relation issues facing the College at this time?

\(^8\) Note: In 2001, each question was posed separately, while in 2000, respondents were asked to choose from only three of these statements.

\(^9\) Note: Majority of remaining responses were “Don’t know”.

\(^+\) Questions related to these topics were asked in a different manner or not asked. Therefore, a comparison is not possible.

\(^*\) Wording in 2001 was different, “Mt. SAC is responsive to community needs.”
Respondents were also asked: “Do you think there are any major public relations or community issues facing the College at this time? If yes, please elaborate.” Some 41 people listed a response. The four themes, which emerged from the comments, fell into these categories:
1. Convince people as to why you need support for a bond. (19 responses)
2. The communities farthest from the College don’t know Mt. SAC. (5 responses)
3. The College should partner with other educational entities. (5 responses)
4. The college should address diversity issues. (4 responses)

Respondents were also provided an opportunity to make comments or recommendations for improving programs and services at Mt. SAC. Some 20 people made comments. Some of the most interesting included:
- “Website needs to be updated.”
- “Absolutely more classrooms. Classes fill quickly leaving many without options.”
- “I value the education I got there and I always recommend the college to anyone.”
- “Some first time students have trouble getting CSU, UC requirement classes.”
- “I hope Mt. SAC will prove to the rest of the community colleges that they are the flagship regarding recycling, reusing, and source reduction.”
- “Mt. SAC is one of the best community colleges in the state with a whole variety of offerings.”
- “Employees at my workplace need interactive online courses.”

As with every study, some limitations exist. We acknowledge that:
- The survey was sent to groups on our mailing list. These people receive the Campus Connection and Update material. They have more knowledge about the College than the average citizen. Some of the Program Advisory Committee members who were part of the pool would have subject matter expertise on what we do for students in various programs.
- Generally, people with strong positive or negative feelings respond to a survey. We have no data on the 613 people who chose not to respond.
- The sample is small, but statistically valid.
- There was only one question related to the bond measure and it did not take into account California’s current economic situation.
- Almost 60% of the respondents live within the District.
- The sample included decision makers and leaders of the community. Few “average citizens” were part of the pool.
Overall, leaders and decision makers in the College district view Mt. San Antonio College in a positive light. It is apparent that there is positive support in the community for another bond attempt because our facilities needs have been articulated to the leaders and decision makers.

Capstone questions, much like the bond question, tend to mask a focus response. For example, the Fairbanks’ study asked the bond questions in at least three different ways both before and after educating the respondent on our needs. It is unknown whether respondents would have answered in the same way if other elements were included in the survey, such as the energy crisis, high oil prices, and the general California economic situation.

The critical question will be how to educate the average voter that our facility needs are real.

This report will be shared with the Institutional Marketing Committee to address any issues that might be helpful for marketing the college. The study will be posted on the web site of the Office of Research and Institutional Effectiveness. Please visit http://www.mtsac.edu/college/institutional/research
APPENDICES
Appendix A: Cover Letter and Community Perception Survey

March 2001

Dear Friend of Mt. SAC:

Mt. San Antonio College continuously seeks to improve the quality of its programs and services for the people of the Walnut, San Gabriel and Pomona Valleys. As a community leader, your views about the College are critically important as we seek to improve what we do. That is why I am asking you to complete the enclosed Community Perception Survey concerning Mt. San Antonio College. In addition to providing us valuable feedback on the way we communicate with the public, we are interested in knowing your perception of higher education.

The survey will take no more than five minutes of your time. A postage paid envelope is enclosed for your convenience. I hope you will complete and return the survey to us by April 12, 2001 so that we may include your perceptions of how we serve your community in our final report.

Finally, I would like to encourage you to check out our new and expanded web site at www.mtsac.edu for information on our programs, services, cultural arts series, and other activities. I would also like to invite you to visit Mt. San Antonio College at any time. Tours of the campus or particular programs may be arranged by calling Jamaika Fowler at (909) 594-5611 ext. 5682.

Thank you for your assistance and continuing support. We look forward to hearing from you.

Sincerely,

Bill Feddersen, Ed.D.
President

Encs.
Mt. San Antonio College
Community Perception Survey

INSTRUCTIONS

In an effort to build a strong relationship with the
communities Mt. SAC serves, improve the services we provide, and
to gather important information for program review and planning, Mt.
SAC asks for your assistance in completing this survey. Your
responses are IMPORTANT and will be kept CONFIDENTIAL. If you
have any questions about this survey, please contact the Institutional
Advancement Office at (909) 594-5611, x4259. Please return the
survey by April 12, 2001. Thank you for your assistance.

The survey can be completed in DARK PEN or PENCIL.
Please mark the circles fully as shown:

What programs or projects do you feel will be the most important for Mt. SAC to consider over the next 20 years?

Strongly agree  Agree  Disagree  Strongly Disagree  No opinion

Finding new ways to provide the financial resources needed to maintain state-of-the-art college facilities

Based on what you know or have heard, would you say that….

Yes  No  Don't Know

Mt. SAC is a good place to get an education.
Mt. SAC provides affordable education
Mt. SAC has outstanding athletic programs.
Mt. SAC focuses on quality.
Mt. SAC has excellent teachers.
Mt. SAC is responsive to community needs.
Mt. SAC has an excellent state and national reputation.

Within the next five years, do you think that you and/or members of your family would attend Mt. SAC for…

Lifelong learning (non-credit) courses
Credit courses
Cultural Arts Events/Activities
None of the above

Do you think that there are any major public relations or community relation issues facing the College at this time?

Yes
No

If you Marked “yes” to the previous question, please elaborate.

________________________

________________________

________________________

Please answer the following general questions.

Very Likely  Likely  Unlikely  Very Unlikely  No opinion

Given that Mt. SAC needs to accommodate an additional 7,000 credit students in the next 10 years, how likely would you be to support a local bond measure to renovate, upgrade and provide new classrooms and learning support space?

If you knew that Mt. SAC offers interactive courses via on-line computers via the Internet, how likely would you be to enroll in a class?

Include any additional comments or recommendations for improving the programs or services offered by the College or for building stronger community relationships by the College, (if you need more space, please use a separate sheet of paper):

Thank you for completing this survey. Please return the survey in the envelope provided by April 12, 2001. Thank you for your time and assistance.
Appendix B: Respondents visited the campus in 1999-2000 to attend an event or class.
