1.	ITEM Agenda check	Agenda checked.	ACTION/OUTCOME Agenda approved.
2.	Review the Budget Committee Meeting Summary November 15, 2023	The Budget Committee Meeting reviewed and approved the meeting Summary of November 15, 2023.	The meeting summary was approved.
3.	Report out from IEC Representative	 Institutional Effectiveness Committee (IEC) Representative Patty Quińones provided the following updates via email: IEC had its final meeting of the Fall semester on 11/22/2023. The primary focus of the meeting was solidifying the agenda and activities for the Expanded Presidents Advisory Council (EPAC). IEC will take all the feedback from EPAC and create a report to share with PAC that will highlight all the things we are doing as a campus to support the Vision 2030 activities and where we have gaps. 	
4.	NRA Timeline	Morris Rodrigue provided an update on the NRA Timeline during the meeting.	

		Recently, the President's Cabinet has been prioritizing the allocation of one-time funds in discussions over the past few meetings. There has been a strong emphasis on channeling requests through PIE, and any proposals not originating from PIE have not been considered. Vice Presidents have been utilizing PIE to assess new resource allocations and will begin prioritizing requests based on PIE starting next Tuesday. An LAO Report was recently released on state revenue collections. Projections have been impacted by delays in income tax fillings, which have been extended to October. As a result, there is uncertainty around state income tax collections, with figures currently falling below projections. Previously, there were projections of a Cost of Living Adjustment (COLA) slightly below 4%, but now discussions are centered around a potential 1% or 2% COLA. When planning for revenue coming in during 2024-2025, they are considering models with a lower COLA assumption, around 1%. Additionally, it's important to note that without any changes to staffing or expenses, there is a natural increase in expenses of 1-1.5%, which further complicates budgeting decisions. Statutory COLA projections are typically funded by the governor in a normal year, but in a downturn, this funding may be withheld. Analyzing trends in our revenue and expenses will guide our decision-making process. The district is taking a cautious approach in resource allocation in anticipation of next year's challenges. We expect to have a clearer picture of the COLA in January.	Vivian to email LAO report to the committee.
5.	Budget Review and Development Guide Updates	Tabled for next meeting.	Continue the discussion on 3/13/2024.

Subject: 2023-24 Tentative Budget Development

We are happy to announce the budget development process for the 2023-24 fiscal year!

In accordance with the budget review and development processes and to ensure budgets are reviewed regularly, a comprehensive review of all of the Status Quo Budgets is recommended to align the College's budget with actual expenditures. The following are essential items to consider.

Budget Process for the Unrestricted General Fund:

This budget process is for realigning your status quo or operating budget to your anticipated expenditure needs for 2023-24. If the budget is increased in one budget line item under a department (Org), it needs to be decreased in another budget line item under a department (Org). This process will save Budget Managers from having to submit budget transfers, which will expedite your purchases during 2023-24.

Budget Process for Grants and Restricted Programs:
