

# Sweet Treat Pluerry

## Interspecific Plum

## Plum x Cherry

Mt. San Antonio  
College  
Horticulture Unit

"college educated plants"

A new fruit type that is a cross between a plum and a cherry, giving it the sweetness of a cherry, combined with that summer fresh plum zing. Much larger than a cherry, but slightly small for a plum, this precocious and prolific variety will hang on the tree for over a month. Upright branching habit. Midseason bloom. Harvest June-July.
