GEO Workshops Schedule Spring 2009

All Workshops will take place on the Friday of the second week of the semester, 3/06/09.

9 – 11 am: **Humanities, Area C** will meet at Founders Hall.

9 – 11 am: **Sciences, Area B** will meet at 9C – Stage.

11:30 – 1:30: **Arts, Area C** will meet at Founders Hall.

11:30 – 1:30: **Social, Political, and Economic Institutions, Area D** will meet at 9C – Stage.
Multidisciplinary Workgroups with Courses

Sciences, Area B

Physical Sciences: ASTR 5, ASTR5L, ASTR7, ASTR8, CHEM10, CHEM 20, CHEM40, CHEM50/H, CHEM51, GEOG 1/H, GEOG 1L/H, GEOL 1, GEOL 7, GEOL 8/H, GEOL 8L, GEOL 9, GEOL 10, GEOL 13, METO 3, OCEA 10/H, OCEA 10L, PHSC 7, PHSC 7L, PHYS 1, PHYS 2AG, PHYS 2BG, PHYS 4A

Life Sciences: AGOR 1, ANAT 10A, ANAT 10B, ANAT 35, ANAT 36, ANTH 1/H, ANTH 1L, BIOL 1, BIOL 2, BIOL 3, BIOL 4/H, BIOL 6, BIOL 6L, BIOL 17, BIOL 20, BIOL 21, MICR 1, MICR 22, PSYC 1B

Arts, Area C

Humanities, Area C

CHIN 1, CHIN 2, CHIN 3, CHIN 4, ENGL 1B/H, FRCH 1, FRCH 2, FRCH 3, FRCH 4, FRCH 5, FRCH 6, FRCH 60, GERM 1, GERM 2, GERM 3, HIST 1, HIST 3/H, HIST 4/H, HIST 7/H, HIST 8/H, HIST 10, HIST 11, HIST 19, HIST 30, HIST 31, HIST 35, HIST 36, HIST 39, HIST 40, HUMA 1, ITAL 1, ITAL 2, ITAL 3, ITAL 4, ITAL 5, ITAL 6, JAPN 1, JAPN 2, JAPN 3, JAPN 4, JAPN 5, LIT 1, LIT 2, LIT 6A, LIT 6B, LIT 11A, LIT 11B, LIT 14, LIT 15, LIT 20, LIT 25, LIT 33, LIT 35, LIT 36, LIT 40, LIT 46, LIT 47, PHIL 5/H, PHIL 12/H, PHIL 15/H, PHIL 20A, PHIL 20B, SIGN 101, SIGN 102, SIGN 103, SIGN 104, SIGN 202, SPAN 1, SPAN 2, SPAN 3, SPAN 4, SPAN 11, SPAN 12, SPAN 25

Social, Political, and Economic Institutions, Area D

AGAG1, AGFR 20, ANTH 3, ANTH 5, ANTH 22, ANTH 30, BUSC 1A/H, BUSC 1B/H, CHLD 1, CHLD 10/H, GEOG 2/H, GEOG 5, GEOG 8, GEOG 30, HIST 3/H, HIST 4/H, HIST 10, HIST 11, HIST 19, HIST 35, HIST 39, JOUR 100, JOUR 107, POLI 2, POLI 5, POLI 9, PSYC 1A/H, PSYC 19, PSYC 25, SOC 1/H, SOC 2/H, SOC 4, SOC 5, SOC 14, SOC 15, SOC 20/H, SPCH 7, SPCH 26/H
Agenda for General Education Outcomes Workshop, March 6, 2009

(1) Introduction and General Q and A.  15 minutes.

(2) Activity 1: Consensus on outcome.  20 minutes.

(3) Activity 2: Agree on what student learning of outcome means.  1 hour 15 minutes.

(4) Wrap up.  10 minutes.
General Education Outcomes (GEOs) Workshop: Introduction

Workshop goals

(1) Participants will understand the philosophy of general education for their Area, and why the course(s) they represent are included in that Area.
(2) Participants will agree on a common GEO for all courses within the designated Area.
(3) Participants will come to a shared understanding of what student achievement of the stated outcome means.
(4) Participants will be given the tools and resources to implement assessment of their GEO by June 2009.

The Essentials of Assessment

1) Preliminary Discussion. Workshop Goal #1.
2) Statement of SLO/GEO. Workshop Goal #2.
3) Develop an Assessment Plan.

Plan Components:

Assessment Activity: An activity that generates student product. Determine what will be done by students that will demonstrate the level of learning they have achieved for the stated outcome. This is the material that will be assessed. Something you are already doing in your course can work.

Method of Assessment: The way student product will be analyzed. Many strategies for course-embedded assessment are listed in the SLOs Handbook under “Assessment Tool Box.” One example is a holistic rubric. A rubric is a scale for scoring student work against a pre-defined set of criteria. It is an external tool that can be used to evaluate course-embedded Assessment Activities separate from the way an instructor usually grades the work. Holistic rubrics measure performance across multiple factors as a complete product. Given the variety of Assessment Activities across different courses and sections that the assessment of a GEO will involve, a holistic rubric will be useful. Workshop Goal #3.

Criteria for Success: A benchmark for success agreed upon by the owners of the assessment process. This is usually determined in conjunction with the Method of Assessment, or based on prior results in the event the outcome is being assessed multiple times.

4) Data Collection = Assessment! Workshop Goal #4.
Programs Leading to an Associates Degree

GENERAL EDUCATION REQUIREMENTS FOR 2008-2009

AREA A:
Communication in the English Language (6 units):
Select two [2] courses from the following:
- ENGL 1A Freshman Composition
- ENGL 1AH Freshman Composition – Honors
- SPCH 1A Public Speaking
- SPCH 1AH Public Speaking – Honors

PHSC 7 Physical Science
OCEA 10 Introduction to Oceanography

PHSC 7L Physical Science Laboratory
PHYS 1 Physics
PHYS 2AG General Physics
PHYS 2BG General Physics
PHYS 4A Engineering Physics

LIFE SCIENCES
AGOR 1 Horticultural Science
ANAT 10A Introductory Human Anatomy
ANAT 10B Introductory Human Anatomy
ANAT 35 Human Anatomy
ANAT 36 Human Physiology
ANTH 1 Biological Anthropology
ANTH 1H Biological Anthropology – Honors
ANTH 1L Biological Anthropology Laboratory

Biol 1 General Biology
BIOL 2 Plant and Animal Biology
BIOL 3 Ecology and Field Biology
BIOL 4 Marine Biology Laboratory
BIOL 6L Biology for Majors – Honors
BIOL 6 Marine Science Laboratory
BIOL 6L8 Biology for Majors – Honors
BIOL 6L6 Marine Science Laboratory

MICR 1 Principles of Microbiology
MICR 22 Microbiology
PSYC 1B Biological Psychology

AREA B:
The Physical Universe and Life (3 units):
Select one [1] course from the Physical Sciences or Life Sciences:

PHYS 4A Engineering Physics
PHYS 2AG General Physics
PHYS 2BG General Physics
PHYS 4A Engineering Physics

GEOG 1 Elements of Physical Geography
CHEM 50H General Chemistry I – Honors
CHEM 50 General Chemistry I
CHEM 40 Introduction to General Chemistry
CHEM 20 Introductory Organic and Biochemistry
CHEM 10 Chemistry for Allied Health Majors

GEOL 8 Earth Science
GEOL 7 Geology of California
GEOL 1 Introduction to Geology

GEOL 9 Environmental Geology
GEOL 10 Natural Disasters
GEOL 13 Evolution of the Earth

METH 3 Weather and the Atmospheric Environment
METH 3L Weather and the Atmospheric Environment Laboratory

OCEA 10 Introduction to Oceanography
OCEA 10H Introduction to Oceanography – Honors

PHSC 7 Physical Science

OCEA 10L Introduction to Oceanography Laboratory

* Courses may not be double counted to satisfy more than one area, even if a course is listed in more than one area.

GENERAL EDUCATION REQUIREMENTS FOR 2008-2009 (continued)

 AREA C:
Arts and Humanities (6 units):

ARTS

ARTS

AHIS 5H History of Western Art: Renaissance
通过Modern – Honors

AHIS 6H History of Modern Art

AHIS 9 History of Asian Art

AHIS 10A A History of Greek and Roman Art and Architecture

AHIS 11 History of African, Oceanic, and Native American Art

AHIS 12 History of Pre Columbian Art

AHIS 19TH History of African, Oceanic, and Native American Art

ARCH 31 World Architecture I

ARCH 32 World Architecture II

ARTB 14 Basic Studio Arts

ARTD 25A Photography

ARTG 20 Art, Artists and Society

ARTS 22 Design: Three-Dimensional

ARTS 30A Ceramics: Beginning

ARTS 40A Sculpture: Beginning

ID 180 History of Interior Architecture and Design

MICR 22 Microbiology

MUS 7 Fundamentals of Music

MUS 11A Music Literature Survey

MUS 11B Composition

MUS 12 History of Jazz

MUS 13 Introduction to Music Appreciation

MUS 13H Introduction to Music Appreciation – Honors

MUS 14A World Music

MUS 14B American Folk Music

MUS 15 Rock Music History and Appreciation

PHOT 15 History of Photography

SPCH 4 Oral Interpretation of Literature

THTR 9 Introduction to Theatre Arts

THTR 10 History of Theatre Arts

THTR 11 Principles of Acting I

HUMANITIES

CHIN 1 Elementary Chinese

CHIN 2 Continuing Elementary Chinese

CHIN 3 Intermediate Chinese

CHIN 4 Continuing Intermediate Chinese

ENGL 18H English – Introduction to Literary Types

ENGL 18H English – Introduction to Literary Types

FRCH 1 Elementary French

FRCH 3 Intermediate French

FRCH 4 Continuing Intermediate French

FRCH 5 Advanced French

FRCH 6 Continuing Advanced French

FRCH 60 French Culture Through Cinema

GERM 1 Elementary German

GERM 2 Elementary German

GERM 3 Intermediate German

HIST 1 History of the U.S.

HIST 3H History of World Civilization – Honors

HIST 4 History of World Civilization

HIST 5 History of World Civilization

HIST 7 History of the U.S.

HIST 9 History of the U.S.

HIST 8 History of the U.S.

HIST 8H History of the U.S. – Honors

HIST 10 History of Asia

HIST 11 History of Asia

HIST 12 History of Mexico

HIST 13 History of the African American

HIST 14 History of the African American

HIST 15 History of Africa

HIST 16 Women in American History – Beyond the Stereotypes

HIST 17 California History

HIST 18 Mexican American History

HUMA 1 The Humanities

**Activity One Worksheet**

The goal of this activity is to come to agreement on at least one common learning outcome to assess. This choice should be guided by the philosophy of the general education Area participants belong to. Faculty generated outcomes will be provided as examples. Participants can also share their own course level SLOs as a starting point. **Getting Started Suggestion:** What do you do in your course that uniquely reflects why the course belongs in the designated Area of the general education pattern? Although this is a particular aspect of your course, try to answer the question in general terms so that it can be applied across all disciplines in your Area. Share and discuss results, striving for group consensus on at least one such outcome.
General Education Outcome Zones
Mt. San Antonio College

These are the General Education Outcome Zones for Mt. San Antonio College. If you want to comment on these Zones, click here to visit the GEO Discussion Board.

**Critical Thinking and Reasoning** – includes synthesis, evaluation, interpretation of ideas, application of concepts; problem solving and analysis; identification of logical fallacies or sources of error; development of logical arguments based on cogent analysis of supporting evidence.

**Effective Communication** – includes development of effective skills for both written and oral communication, including presentation skills.

**Quantitative Reasoning** – includes the ability to interpret and analyze information given graphically or numerically; apply mathematical expressions, equations, and theorems; understand statistical data; use mathematical concepts to construct math models; and to use math models to solve applied problems.

**Reading Competence** – includes the ability to understand vocabulary, critically analyze content, meaning, and author’s purposes, as well as the development of increased proficiency and depth of understanding. Includes analysis of a variety of written materials and styles appropriate to different disciplines.

**Information Competence and the Effective Uses of Technology** – includes the ability to identify, research, and assess the credibility of a variety of information sources, including those obtained from the internet and other electronic data sources as well as more traditional published sources. Also includes knowledge and proficiency in the use of standard computer technology and software used in academics, a variety of professions, and daily life.

**Personal Responsibility** – includes the development of skills, attitudes, abilities, and values that facilitate advanced learning, personal growth, and preparation for lifelong learning. These include study skills development, awareness of academic environments and resources, self-awareness of learning styles and habits, persistence, acceptance of personal and professional responsibility, leadership, initiative, proactive action, empathy, interpersonal skills development, and the ability to work independently.

**Social Responsibility and Cultural Competence** – includes understanding, appreciation, and respect for perspectives, values, and societal contributions of diverse peoples and cultures; awareness, sensitivity to and acceptance of a variety of different viewpoints; and the ability to understand and work with individuals who differ from one’s self.

**Civic Engagement and Global Citizenship** – includes an understanding of current events, of ethics and the implications of personal and societal choices as they affect our interconnected world economy, governments, environment, and social climate; as well as acceptance of responsibility for civic and societal engagement.

Presented as an information item to C & I on March 25, 2008
Presented as an information item to Academic Senate on April 3, 2008
Adopted by the Academic Senate on May 15, 2008
General Education Requirements (Mt. SAC 2008-09 Catalog, p. 65)

Philosophy Statement (excerpt, p. 65)

General education courses are not primarily skills-based, nor are they limited to, or more appropriate for, majors in a specialized field of study. Courses that fulfill general education requirements must:
1. Require post-secondary level skills in reading, writing, quantitative reasoning, and critical thinking
2. Improve students’ abilities to
   • Communicate oral and written ideas effectively
   • Define problems, design solutions, critically analyze results;
   • Use available media to access and retrieve information for data gathering and research;
   • Work effectively, both cooperatively and independently;
   • Develop and question personal and societal values, make informed choices, and accept responsibility for their decisions;
   • Function as active, responsible, ethical citizens;
   • Acquire the curiosity and skills essential for lifelong learning
3. Impart understanding, knowledge, and appreciation of:
   • Our shared scientific, technological, historical, and artistic heritage, including the contributions of women, ethnic minorities, and non-western cultures
   • The earth’s ecosystem, including the processes that formed it and the strategies that are necessary for its maintenance;
   • Human social, political, and economic institutions and behavior, including their interrelationships;
   • The psychological, social, and physiological dimensions of men and women as individuals and as members of society.

AREA B – Science and Mathematics

These courses impart knowledge about living and non-living systems, and mathematical concepts and quantitative reasoning with applications. Courses fulfilling this requirement:
• Promote understanding and appreciation of the methodologies and tools of science
• Emphasize the influence of scientific knowledge on the development of civilization;
• Impart appreciation and understanding of basic concepts, not just skills;
• Offer specific inquiry into mathematical concepts, quantitative reasoning and application (see Mt. SAC degree competency requirement).
Workgroup Arts/Humanities Area C

General Education Requirements *(Mt. SAC 2008-09 Catalog, p. 65)*

Philosophy Statement *(excerpt, p. 65)*

General education courses are not primarily skills-based, nor are they limited to, or more appropriate for, majors in a specialized field of study. Courses that fulfill general education requirements must:

1. Require post-secondary level skills in reading, writing, quantitative reasoning, and critical thinking
2. Improve students’ abilities to
   - Communicate oral and written ideas effectively
   - Define problems, design solutions, critically analyze results;
   - Use available media to access and retrieve information for data gathering and research;
   - Work effectively, both cooperatively and independently;
   - Develop and question personal and societal values, make informed choices, and accept responsibility for their decisions;
   - Function as active, responsible, ethical citizens;
   - Acquire the curiosity and skills essential for lifelong learning
3. Impart understanding, knowledge, and appreciation of:
   - Our shared scientific, technological, historical, and artistic heritage, including the contributions of women, ethnic minorities, and non-western cultures
   - The earth’s ecosystem, including the processes that formed it and the strategies that are necessary for its maintenance;
   - Human social, political, and economic institutions and behavior, including their interrelationships;
   - The psychological, social, and physiological dimensions of men and women as individuals and as members of society.

AREA C – Humanities

These cultivate intellect, imagination, sensibility and sensitivity. They encourage students to respond subjectively as well as objectively and to develop a sense of the integrity of emotional and intellectual responses. Courses fulfilling this requirement:

- Study great work of the human imagination;
- Increase awareness and appreciation of the traditional humanistic disciplines such as art, dance, drama, literature, and music;
- Impart an understanding of the interrelationship between creative art, the humanities, and the self;
- Provide exposure to both Western and non-Western cultures;
- May include a foreign language course that contains a cultural component as opposed to a course that focuses solely on skills acquisition.
General Education Requirements (Mt. SAC 2008-09 Catalog, p. 65)

Philosophy Statement (excerpt, p. 65)

General education courses are not primarily skills-based, nor are they limited to, or more appropriate for, majors in a specialized field of study. Courses that fulfill general education requirements must:

1. Require post-secondary level skills in reading, writing, quantitative reasoning, and critical thinking
2. Improve students’ abilities to
   - Communicate oral and written ideas effectively
   - Define problems, design solutions, critically analyze results;
   - Use available media to access and retrieve information for data gathering and research;
   - Work effectively, both cooperatively and independently;
   - Develop and question personal and societal values, make informed choices, and accept responsibility for their decisions;
   - Function as active, responsible, ethical citizens;
   - Acquire the curiosity and skills essential for lifelong learning
3. Impart understanding, knowledge, and appreciation of:
   - Our shared scientific, technological, historical, and artistic heritage, including the contributions of women, ethnic minorities, and non-western cultures
   - The earth’s ecosystem, including the processes that formed it and the strategies that are necessary for its maintenance;
   - Human social, political, and economic institutions and behavior, including their interrelationships;
   - The psychological, social, and physiological dimensions of men and women as individuals and as members of society.

AREA D – Social Sciences

These courses explore, at the micro and macro-level, the social, political, and economic institutions that underpin society. Courses fulfilling this requirement:

- Promote an understanding and appreciation of social, political, and economic institutions;
- Probe the relationship between these institutions and human behavior;
- Examine these institutions in both their historical and contemporary context;
- Include the role of, and impact on, non-white ethnic minorities and women;
- Include both Western and non-Western settings.
**Activity Two Worksheet: Part 1**

At this point, you have hopefully agreed on at least one common learning outcome to assess. The goal of this activity is to come to a shared understanding of what student learning of this outcome means. A method of reaching this goal is to have you all agree, in principle, on the basic descriptors that characterize a level of achievement. This information could then be incorporated in to the Assessment Instrument you will be using for assessment at the course level, such as a scoring rubric. A sample of this is given as a handout.

**Getting Started Suggestion:** Think of a major assignment that you typically give in your course(s) that could be used as an activity to assess the stated learning outcome. Imagine that you are reviewing this assignment with an idea of letting students know what you are generally expecting in each of the four categories of achievement, 0 – 3. See if you can come up with at least two or three descriptors for each level.

**(3 points) Exceeding Expectations:**

**(2 points) Meeting Expectations:**

**(1 point) Approaching Expectations:**

**(0 points) Not Meeting Expectation:**
Activity Two Worksheet: Part 2

Share and discuss the work you did in Part 1 with your colleagues. Try to reach consensus on at least three descriptors for each level of achievement.

(3 points) Exceeding Expectations:

(2 points) Meeting Expectations:

(1 point) Approaching Expectations:

(0 points) Not Meeting Expectation:
Learning Outcome: Students will identify, analyze, and evaluate arguments as they occur in their own and others’ work.

(4 points) Exceeding Expectation: The student’s work
1. Identifies the target argument(s) and clearly distinguishes it from any extraneous elements such as expressions of opinion and descriptions of events.
2. Carefully articulates the argument’s conclusion, clearly distinguishes it from its premises and identifies most relevant definitions and/or hidden assumptions.
3. Clearly and correctly assesses whether the argument’s premises provide sufficient logical support for the conclusion, independently of whether the premises are true.
4. Clearly and correctly assesses the reasonableness of the premises, including the credibility of their sources (e.g., observation, testimony, measurement, experiment, etc.), independently of whether the premises support the conclusion.

(3 points) Meeting Expectation: The student’s work
1. Identifies the target argument(s).
2. Distinguishes the argument’s conclusions from its premises and some effort is made to identify relevant definitions and/or hidden assumptions.
3. Correctly assesses whether the argument’s premises provide sufficient logical support for the conclusion, independently of whether the premises are true.
4. Correctly assesses the reasonableness of the premises, including the credibility of their sources, independently of whether they support the conclusion.

(2 points) Approaching Expectation: The student’s work
1. Identifies the target argument(s) but includes extraneous elements such as expressions of opinion and descriptions of events.
2. Distinguishes the argument’s conclusions from its premises, but little effort is made to identify relevant definitions and/or hidden assumptions.
3. Attempts to assess whether the argument’s premises provide sufficient logical support for the conclusion, independently of whether the premises are true.
4. Attempts to assess the reasonableness of the argument’s premises, but little effort is made to consider the credibility of the premises’ sources.

(1 point) Not Meeting Expectation: The student’s work
1. Does not isolate the argument(s) from extraneous elements in the text.
2. Does not identify the argument’s conclusion or distinguish it sufficiently from the premises and little or no effort is made to identify relevant definitions or hidden assumptions.
3. Does not address whether the argument’s premises are reasonable to believe, independently of whether they support the conclusion or else no effort is made to evaluate the credibility of the premises’ sources.
**AREA E: DATA COLLECTION FORM FOR GEO**

### AREA E: LIFELONG UNDERSTANDING AND SELF-DEVELOPMENT

**Courses**: (16 UNIQUE COURSES, 19 INCLUDING HONORS)

- AD 3 (Chemical Dependency: Intervention, Treatment and Recovery)
- BIOL 5 (Contemporary Health Issues)
- BIOL 13 (Human Reproduction, Development and Aging)
- BIOL 15 (Human Sexuality)
- BIOL 15H (Human Sexuality - Honors)
- CHLD 10 (Child Growth and Development)
- *CHLD 10H (Child Growth and Development - Honors)*
- *COUN 5 (Career/Life Planning)*
- FCS 41 (Life Management)
- LEAD 55 (Exploring Leadership)
- NF 10 (Nutrition for Personal Health and Wellness)
- NF 25 (Essentials of Nutrition)
- NF 25H (Essentials of Nutrition - Honors)
- NF 28 (Cultural and Ethnic Foods)
- PE 34 (Fitness for Living)
- PSYC 14 (Developmental Psychology)
- *PSYC 25 (The Psychology of Women)*
- PSYC 26 (Psychology of Sexuality)
- PSYC 33 (Psychology for Effective Living)

* indicates a course which satisfies more than one GE area

**GENERAL EDUCATION OUTCOME**: Students completing an assignment in Area E courses will demonstrate meaningful self-evaluation related to increasing their lifelong personal well-being.

**Criteria**: Students will **meet expectations** by scoring a "1" or more in at least two categories.

**Rubric**:

<table>

The Next Steps

1. **Bring the results from this Workshop back to your department for approval.** The goal is that the GEO will be an approved course level SLO for the particular course(s) involved. Determine who will be the “owners” of the assessment process for the course(s). These will be the parties responsible for implementing the Assessment Plan, which includes making proposals to their departments about elements of assessment not generated in the Workshop and submitting the Reporting Form (see back of this sheet). Also, determine whether it will be submitted by section or as a course.

2. **A GEOS committee member will be periodically checking in with you to see how things are going and to offer any assistance you may need to assess the GEO.** This includes making presentations at department meetings, practical advice on overcoming obstacles, and how to document the process in ePIE. Additional help is available from Joan Sholars, the SLOs Coordinator (jsholars@mtsac.edu), and through the Research and Institutional Effectiveness Office (research@mtsac.edu).

3. **A key first step is determining the Assessment Activity.** The SLOs Guidebook has many suggestions. One example is the use of a course-embedded activity. It is not necessary that this activity be the same across the disciplines. It need not be the same even for different sections of the same course. What is important is that the activity will demonstrate the level of learning a student has for the stated outcome and that the activity is amenable to analysis using the rubric constructed at the Workshop.

4. **Though the method of assessment for each course can vary, it is essential to use the same elements of the rubric that were agreed upon in the Workshop to determine if students have met expectations for documentation on the GEOS Recording Form.**

5. **The main achievements resulting from the GEOS Initiative will be made transparent to the campus community by being published on the GEOS website.** This will include the GEOS determined by the various Workgroups, the status of assessing these GEOS for courses within the Workgroups, and a Summary of Data that will be updated as new information comes in.

6. **SLOs/AUOs WILL NOT BE USED FOR INDIVIDUAL FACULTY EVALUATIONS.**

7. **SUBMIT YOUR FINAL REPORTING FORM(S) BY JUNE 30, 2009 to the Research and Institutional Effectiveness Office (Building 4, Room 217 or research@mtsac.edu).**
General Education Outcome (GEO) Reporting Form
AREA E: LIFELONG LEARNING AND SELF-DEVELOPMENT

GEO: Students completing an assignment in Area E courses will demonstrate meaningful self-evaluation related to increasing their lifelong personal well-being.

Criteria: Students will meet expectations by scoring a "1" or more in at least two of the three categories (Collection, Analysis, and Application).

Reporting Date: ______________________

Course Title: ____________________________

Reference Number: ______________________

Term of Assessment: ______________________

Number of students who completed the assignment: ______

Of those completing the assignment, number of students who met expectations: ______

Key Findings/Highlights:
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

How will the results be used?
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________
____________________________________________________________________________________

Please return completed forms to the Research and Institutional Effectiveness Office (Building 4, Room 217 or research@mtsac.edu) by JUNE 30, 2009.
