

Study Techniques Meeting
September 6, 2007
1:15 Room 112

Attendees: Pat Bower, Luisa Fuller, Carolyn Robinson, Rick Stepp-Bolling

Agenda Item	Discussion	Outcome
1.0 Facilitator and Recorder		Rick
2.0 Review Minutes		No corrections
3.0 Concerns	Pat discussed a problem that has occurred with the acceptance of STDY 85 C. Originally all STDY 85s were accepted by Ed Design, but now we are being asked to adjust C with Carol Webster's design. Carol's design was accepted by Distance Learning, but was not a match with the LERN STDY 85 C.	Lori can ask Carol to bring in her description of C so the committee can match the two.
4.0 Shared Best Practices and SLOs	It was recommended that the Shared Best Practices focus on our Outcomes for STDY classes. This way we can look at how best to create an assessment instrument that will measure achievement in those outcomes.	A possible first outcome to be measured is for STDY 80: Identify Strengths of Self-Awareness.
5.0 Brain-Based Learning	October 12, 19, and 26 were given as possible dates for a Friday get-together for Brain-based learning presentation	Lori and Rick to decide on the best date.
6.0 LAC Study Tips	It was suggested to do one a month. Information to be brought in by a volunteer(s).	Possible areas: Note Taking, Learning Styles, Test Taking, Memory, Healthy Body and Healthy Brain, Time Management, and Learning Pyramid. All should have a brain-based emphasis
7.0 STDY 85 Link	It was recommended that the old STDY 85 be officially deleted from our curriculum.	Lori
