

2010 Spring Distance Learning Program

What is Distance Learning?

- It means taking classes that are conducted partially or wholly off campus—"at a distance." Students and professors communicate with each other using online and other technologies.

Online Learning Classes

- Classes are delivered over the Internet, and students must attend a mandatory on-campus orientation meeting for each class.

Online-Supported (Hybrid) Classes

- These are similar to online classes but meet on campus for part of the time. The orientation meetings are also mandatory.

Requirements

- Access to a personal computer with Internet connection using the latest browsers like Firefox, Netscape Navigator or Internet Explorer, and an e-mail address.
- Attendance at all scheduled on-campus meetings, including the mandatory orientation meeting.

Tell me about the Mandatory Orientation Meetings

- Attendance is essential for your success and required or you will be dropped from the courses.
- It's an opportunity to meet your professors and determine if Distance Learning is a good way for you to learn.
- Specific requirements of the courses you have selected will be explained.
- At the conclusion of the meetings, you will have begun earning college credit through the Distance Learning Program.

2010 Spring Distance Learning Program

For complete course information, see the course offerings beginning on page 49.

Online classes are delivered primarily via the Internet. Online-supported (hybrid) classes are also delivered via the Internet but have several required on-campus meetings. Students must have access to a personal computer with an Internet connection using the latest browser like Mozilla Firefox, Netscape Navigator, or Internet Explorer and an e-mail address. Students must access the Distance Learning web page <http://vclass.mtsac.edu> for instructions.
