a guide to success

We are pleased to provide you with this *Student Services Guide*, which is a compilation of the major support services and programs available to students at Mt. San Antonio College. We produced the Guide at the request of many students who were not completely aware of the wide range of support services that can actually improve their academic performance and foster their ultimate success here at Mt. SAC.

Registration. Placement testing. Tutorial assistance and study skills. Free computer labs. University transfer assistance. Job placement services. Academic and personal counseling. Help with reading, writing and math assignments. Financial aid. Learning communities. Health services. Programs for single parents and veterans. Special services for those with physical and learning disabilities. Recreational and social activities. All of these resources and more are covered in this handy booklet, which I invite you to explore.

Since all of these programs and services are not housed under one roof, we've provided a pictorial directory of their campus locations in this booklet.

We stand prepared and eager to help enrich your college experience at Mt. SAC.
