TERC News

We've had a great start to the Spring semester with many Career Tech Ed (CTE) students using the TERC facility for independent study and group collaboration. The TERC makes life easier for CTE students. Here's how:

- ✓ We provide tutoring, no appt. required.
- ✓ Our counselors, Jesse Lopez and Mary Beth Barrios, are available on Tuesdays and Thursdays, no appt. required.
- ✓ We have laptops, your course books, and a comfortable study environment.

Need Help with your Resume? Interested in an Internship?

Rachael Brown is the Coordinator of the work experience program campus-wide. She works one-on-one with CTE (Career Technical Education) students helping them find internships, as well as performing practice interviews, and resume help. She's a must-see, knowledgeable resource on campus!

Student Spotlight

Aviation student, Dawei Zhang first came to the U.S. on Christmas Day 2015 to surprise his wife. He said, "I was her Christmas present". He began the Mt Sac Aviation program in Fall 2016 because it appealed to him greatly as a career and there is a major need for ATPs (Airline Transport Pilots). If you're wondering what type of planes an ATP flies, these are the large 737s that hold around 200 people! In addition to this Dawei is also working to become a Certified Flight Instructor (CFI). He enjoys using the TERC as his daily study environment.

TERC TOURS

If you would like to schedule a tour of the facility, please call the front desk at x 6118. You may also email either faculty to schedule a tour of our high tech facility including a technology demonstration for when it is most convenient for your classes.

Aviation Tutors are available for you!

MICROSCOPES AT THE TERC!

The Biology department has generously provided 2 microscopes for use inside the TERC for their Histotech students. In addition, we were given flash cards and new Histotech books. Come by and check out all of the new study materials available for you!

Histology |hi'stäləjē| : the study of the microscopic structure of tissues.
