<td>602.16(a)(1)(i)</td>
<td>Standards effectively address “success with respect to student achievement in relation to the institution’s mission,... including as appropriate consideration of course completion, State licensing examinations, and job placement rates.” Whether institutionally-developed standards to demonstrate student success are being used by the accreditor in the accreditation assessment, and the institution’s performance with respect to student achievement is assessed.</td>
<td>Address in Standard I.B. The institution must set standards for satisfactory performance of student success (student achievement and student learning). The evaluation teams examine the institution-set standards for student success and achievement and assess their appropriateness. Evaluation teams examine institution summary data on course completion rates, licensure pass rates where available, and job placement rates where available. The team also examines program/certificate completion data, and graduation data provided by the college. These data are examined in the context of the institution-set standards of satisfactory performance and goals for improvement of student success (student achievement and student learning). The evaluation team cites this information as evidence of the institution’s accomplishment of mission. The evaluation team report cites the use of this evidence in describing its evaluation of how well the institution fulfills its mission. (Standards I.B; I.B.1-6; II.A; II.A.1.c; II.A.2.a,b,f,g,h,i; II.A.5; II.A.6; ER 10-Student Learning and Achievement)</td>

Appendix E: Selected Evaluation Team Responsibilities for Compliance with USDE Regulations
The evaluation team will examine institutional policies and procedures for measuring the program length and intended outcomes of degrees and certificates offered.

The evaluation team will confirm the institution has transfer of credit policies that are publicly disclosed and that include a statement of the criteria regarding the transfer of credit earned at another institution of higher education.

Since USDE regulations establish a minimum standard, and institutions may choose to include more work for their credit hours than the minimum amount, credit hours at one institution will not necessarily equate to credit hours at another institution for a similar program.

The evaluation team will, in the evaluation team report narrative of its findings, cite the institution’s policy, procedure, class and program evidence examined.

(Standards I.B; I.B.1-6; II.A; II.A.1; II.A.2; II.A.2.h; II.A.6.a-c; ER 9-Academic Credit; Policy on Award of Credit; Policy on Institutional Degrees and Credits; Policy on Transfer of Credit)

| 602.16(a)(1)(ix) And related 668.43 | The standards effectively address the quality of the institution in addressing: “the Record of student complaints received by, or available to, the agency.” The institution “must make readily available to enrolled and prospective students.... (a)(6) the names of associations, agencies or governmental bodies that accredit, approve or license the institution and its programs and the procedures by which documents describing that activity may be reviewed under paragraph (b).” (b) “the institution must make available for review to any student or prospective student upon request a copy of the documents describing an institutions | Address in Standard II.B. | The evaluation team will be sent a copy of any complaints that have been filed with the ACCJC in accordance with the criteria for filing such complaints. The evaluation team will examine the institution’s procedures which define student grievances/complaints and the manner in which they are received and will examine the institution’s files containing student complaints/grievances for the five years preceding a comprehensive evaluation. The evaluation team will examine any patterns observed in the complaints to determine whether they constitute evidence that indicates the institution has failed to comply with Accreditation Standards, ERs and policies. Any deficiencies will be identified in the team report as such. (Standards II.B; II.B.2.c; II.B.3 a; II.B.4; ER 20-Public Information; Policy on Student and Public Complaints Against Institutions) The evaluation team will examine the institution’s means of providing to any student or prospective student information about its accrediting bodies and governmental (usually state) licensing or approval bodies, copies of documents describing an institution’s accreditation or governmental approval, as well as contact information for filing complaints with such bodies. The team report will describe the institution’s compliance with this new requirement. |
| 602.17(f) | The agency provides a detailed written report that assesses the institution’s compliance with the agency’s standards, including areas needing improvement AND the institution’s performance with respect to student achievement. | Address in Standard I.B.  

The evaluation team will examine student achievement data at the programmatic and institutional levels. The institution must set standards of satisfactory performance for student achievement, and evaluate itself against those standards, at the programmatic and institutional levels. The evaluation teams must examine the institution’s own analyses, and also determine whether the institution’s standards for student achievement are reasonable. The examination will assess the institution’s performance with respect to the institution-set standards. The examination will be based upon data, and it will reference data cited above re 602.16, as well as other factors used by the institution. The evaluation team report will detail the institution’s performance, noting both effective performance and areas in which improvement is needed.  

*(Standard I.B; Standard II.A.; Standard II.B.)* |

| 602.17(g) | Distance and Correspondence Education:  
During institutional reviews, the agency applies the definitions of "distance education" and "correspondence education" found in §602.3 to determine which mode of delivery is being employed.  
The agency requires institutions that offer distance education or correspondence education to have processes in place through which | Address in Standard II.A.  

The evaluation team will review the manner in which the institution determines if a course is offered by distance education or correspondence education. The team will examine the delivery mode of a sampling of courses where students are separated from the instructors. The team must assess whether the courses are distance education (with regular and substantive interaction with the instructor, initiated by the instructor, and online activities are included as part of a student’s grade) or correspondence education (online activities are primarily “paperwork related,” including reading posted materials, posting homework and completing exams, and interaction with the instructor is initiated by the student as needed). Use of a learning management system alone will not determine whether the mode is distance education; course syllabi, grading policy, and actual instructional delivery determine how the mode is characterized for USDE purposes. The team will describe its |
| 602.19 (a-e) | The institution establishes that the student who registers in a distance education or correspondence course or program is the same student who participates in and completes the course or program and receives the academic credit. The agency meets this requirement if it:

1. Requires institutions to verify the identity of a student who participates in a class or program by using methods such as:
   (i) A secure log in and passcode
   (ii) Proctored examinations
   (iii) New or other technologies and practices that are effective in verifying student identity

   findings and the team’s judgment of the appropriateness of institutional application of the USDE delivery mode definitions.

   The evaluation team will examine the efficacy of methods that the institution uses to verify the identity of students enrolled in distance education and correspondence education classes. The evaluation team will describe whether the institution uses the secure log in and password for its distance education classes. If the institution uses other methods for its distance education classes or correspondence classes, the evaluation team will describe those methods and the team’s judgment of their efficacy in preserving the integrity of the credits and grades awarded.  
   
   (Standards II.A; II.A.1; II.A.2; II.A.2.c, d, e; II.A.7; II.B.1; II.B.2.c; II.A.3.a; II.C.1; Policy on Distance Education and on Correspondence Education)

   Address in Standard III.D. and I.B.

   Comprehensive evaluation teams must examine the institution’s longitudinal data on the institution’s fiscal condition, including significant increases or decreases in revenues and enrollments, and identify any team concerns about fiscal stability. Comments should be included in Standard III.D.

   (Standards III.D; III.D.1.b, c, d; III.D.2.b,c,g; III.D.3; ER 17-Financial Resources; ER 18-Financial Accountability)

   Comprehensive evaluation teams must examine the institution’s longitudinal data on student achievement (course completion, program/certificate completion, graduation, licensure, job placement data) and identify any team concerns about stability and achievement of mission, as well as any trends that identify strengthened institutional performance.

   (Standards I.B; I.B.1-6; II.A.1.c; II.A.2.a,b; II.A.2.f-i; II.A.5; ER 10-Student Learning and Achievement) |
