## C-ID Courses

The California Community College (CCC) courses on this list have been approved by the C-ID program and given a C-ID designation. The courses with this C-ID designation will articulate with any other CCC course with the same designation for course content credit. Any separate General Education (GE) designation a course may have is not connected to the C-ID designation and should not be assumed. C-ID designation cannot be used as justification for GE certification. In addition to the community college to community college articulation, a course with a C-ID course designation will articulate to four-year universities that have approved articulation with that C-ID designation. To access the CSU courses that have been identified by campuses as comparable to C-ID descriptors, use the COURSES tab or [https://c-id.net/course\\_compare.html](https://c-id.net/course_compare.html). You can search for courses by discipline or CSU campus.

Using the lists below, you can search for courses by discipline or community college. To read about how a course receives a C-ID number, please go to <https://c-id.net/about.html>.

### Disciplines:

 

The number in parenthesis for both disciplines and colleges represents the number of approved courses. You can download a file of all approved courses for all colleges that can be imported into Excel [by clicking here.](#)

### Colleges:

 

## CSU Courses

These are courses identified by CSU campuses as comparable to C-ID descriptors. The CSU courses listed will articulate with approved California Community College courses with that C-ID designation. Comparable identification does not imply CSU-to-CSU articulation, nor does it imply reverse articulation of CSU-to-CCC courses.

Using the lists below, you can search for courses by discipline or CSU. To read about how a course receives a C-ID number, please go to <https://c-id.net/about.html>.

### Disciplines:

 

The number in parenthesis for both disciplines and colleges represents the number of approved courses.

### Universities:
