Subject: RE: Accreditation: Standard IIIC - New Histo Tech BA Degree

Hi Michael,

I spoke with Jennifer MacDonald. She is the Director for HistoTechnology Program. As of now, they have not identified any technology need for the HistoTechnology BA Program.

The bachelor program will use the same equipment they currently using from the Histo Tech Associated Degree. Most of the classroom materials are online and from Canvas so no laptops are needed.

For your information, they just purchased a new HP Z-workstation to support the microscopes. They also have 2 laptops to support labeling of slides. Last year, they purchased a high-end projector. Jennifer also mentioned that should there be a need, they can request the purchases through Strong Workforce Funding or the Perkins Grant.

I hope this helps. Let me know if you need anything else.

Thanks,

Karen

Good morning Michael,

Let me talk to Jennifer McDonald to see if there is technology need. Will get back to you once I have answers.

Thanks,

Karen
