

OCEA 10 Introduction to Oceanography

3 Units (Degree Applicable, CSU, UC)

Lecture: 54

Geological, chemical, physical, and biological aspects of the Earth's ocean. Plate tectonics, physiography of ocean basins and continental margins, ocean sediment, atmosphere and ocean circulation, waves and tides, coasts, and marine ecology. The companion Oceanography Lab ([OCEA 10L](#)) is recommended for students needing a lab to transfer to a four-year college or university. Field trip(s) are required.

For complete schedule, see [Online Search for Classes](#).

| Term | CRN | Course Title | Day | Time | Instructor | Location |
|-----------|-------|--------------|-----|----------------------|------------|----------|
| Fall 2022 | 25563 | OCEA:10 | TR | 11:30am - 12:55pm | D. Neves | 11-2209 |
| Fall 2022 | 25566 | OCEA:10 | MW | 11:30am - 12:55pm | T. Anders | 11-2209 |
| Fall 2022 | 26054 | OCEA:10 | MW | 9:45am - 11:10am | H. Lackey | 60-1511 |
