Database Selection Tips

Selecting a database to start

How to choose a database to start research on my topic? This guide provides answers to the question.

Database basics

This guide is an introduction to library databases. It covers topics including what library databases are, what they offer, why you should the library databases, and how to access them.

Access to Online Resources

- Current Mt. SAC students, faculty, & staff have 24/7 access to library databases. Log in with your portal **username** & **password** for off-campus or mobile access.

- Contact the **IT Help Desk**, (909) 274-4357 if you have problems getting into portal.

Getting **security warning**? Try the troubleshooting tips.

Ask Us

PubAg is the National Agricultural Library's search system for agricultural information and contains full-text articles, along with citations to peer-reviewed journal articles on the agricultural sciences. This is an open access resource.

PubMed ⬀   ⤳

PubMed comprises over 23 million citations for biomedical literature from MEDLINE, life science journals, and online books. Citations may include links to full-text content from PubMed Central and publisher websites.
