Carlos Lopez A03211775 Faculty Relations Senator Associated Students 11-11-2022

## Report for Academic Senate

- We as you already know have drafted a and submitted a resolution and bill on sexual harrasment as well as awareness on campus. We are as associated students will lead by example by us completing the sexual harrasment training by this spring and in the following fall semester. Some of us have already completed most of the sexual harrasment training.
- 2. Also just to inform you that we are almost done with the survey questions to support a resolution and possibly a bill to have cameras installed on and or around campus. We will keep you posted on further developments. This stems from car break ins, sexual harrasment, hit and runs, possible child molestation in the summer in 26 A bathroom, stalking in our parking lots as well around campus. This is all covered in one of my previous reports on campus safety incidents log 63 incidents as of today 11-16-2022 reported.
- 3. We at associated students feel that moving forward with a resolution and hopefully a bill to secure our campus through spreading awareness of sexual harrasment and hopefully monitoring our parking lots through camera technology will make our campus a safer place. We are, as I stated, working on a survey questionnaire for the student body to fill out and get feedback, only because in the past some students as well as faculty and staff were against it!
- 4. We also would like to thank you Roger for your representation at the Board of Trustees meeting. I speak for all Associated Students. Thank you so much for the support and passion you spoke with!
- 5. Lastly we were a bit saddened that our Associated Students addressing the Board of Trustees on the sexual harrasment issues at Mt Sac campus were met with technical difficulties and unfortunately were cut out of the live feed to you tube and are now lost.

Thank You

--
