Accreditation Self Study Channel and access to report & related documents - pushed out to all Faculty, Staff & Students

## Self Study Review & Feedback

# Accreditation 2010 SELF-STUDY

- [Newsletter \(October 2009\)](#)
- [Suggestions for Self Study Feedback](#)
- [Standard I: Institutional Mission and Effectiveness](#)
- [Standard II: Student Learning Programs and Services](#)
- [Standard III: Resources](#)
- [Standard IV: Leadership and Governance](#)
- [All four Standards \(Caution - 329 pages\)](#)

We invite all of you to review all or portions of the Self-Study and to submit comments. Hearing what the Mt. SAC community thinks about the manner in which the college is meeting the Accrediting Commission for Community and Junior College's standards is one of the most important parts of the Accreditation process. Having participation from each constituency group is vital in our efforts to have widespread participation.

## Student Learning Outcomes/General Education Outcomes

Student learning outcomes (SLOs), like general education outcomes (GEOs), are statements that define specific measurable results expected from students that have undergone a learning experience at Mt. San Antonio College. The difference with GEOs is that determining and assessing GEOs may involve cooperation among multiple disciplines, which reflects the nature of the Mt. SAC general education (GE) pattern.

In April 2009 the Academic Senate passed Resolution 2009-02—Transparency of SLOs/GEOs recommending that SLO/GEO data in ePIE be made accessible to all employees through a read-only option by September 2009 in order to share and recognize campus-wide efforts. This new channel is a result of the resolution, and the data is being made available to employees as well as students.
