

SIMULATED INTERVIEW RESOURCES

Career Specialist - Arts Division: Contact your Arts Division Career Specialist for assistance with coordinating a simulated (mock) interview.

JobScan- a tool that Mt. SAC students have free access to that allows users to practice answering common interview questions tailored to various job roles.

Department Faculty - Contact instructors in your department to learn if they have pre-coordinated mock interview options for students.

Alumni - Utilize the Mt. Sac alumni network to inquire about connecting with someone in your field who may be able to assist with a mock interview practice.

Networking- Refer to networking resources on the Arts Division Career Development Resource Page. Utilize LinkedIn and local conferences or organizations to make connections with professionals in your field. Maximize those connections to set up a mock interview.

Interview Warmup- a free tool developed by Google that allows users to practice answering common interview questions tailored to various job roles.

Interview Prep Workshops: The Career Center offers dedicated workshops focused on interview preparation and networking. These sessions often include mock interviews where students can practice their skills in a simulated environment, receive constructive feedback from peers or career specialists, and refine their interviewing techniques

Yoodli - An AI powered tool trusted by companies such as Google. The platform analyzes your speech patterns, identifies filler words, and provides suggestions for improvement. Has a free plan that allows you to practice full conversations as they would occur in real interviews.
