

Downloading and Installing VMware View Horizon Client for use with Distance Learning Courses on Windows

To download the client, first open up your favorite web browser and go to <https://falcon.mtsac.edu>. This page will have an option entitled: **Install VMware Horizon View Client** as shown below.

Click on **Install VMware Horizon Client** and it will take you directly to the download page on VMware.com. Make sure the version drop down (big arrow) is the highest (at this time 2006) and click on **Go to Downloads** (small arrow). **The latest version, 2006, does not support Windows 7 or 8. If you have these Windows versions, change the drop down to 5.0 and download version 5.4.3.**

Product	Release Date	
VMware Horizon Client for Windows	2026	GO TO DOWNLOADS

Press **Download Now** (arrow) and save the file to wherever you wish.

Installing the client.

It may require a reboot after install, so make sure all work is saved. Find the file you downloaded and run it. If it pops up asking for permission to run the file with a screen that looks similar to below, select **Yes**.

Click on **Customize Installation**.

Make sure **Log in as current user** is unchecked and enter "*falcon.mtsac.edu*" into the **Default connection server**.
