[REDACTED] only attended 3.2 hours after the last 3 week intervention. I contacted her this morning and let her know that when she returns all she would need to do is complete a new registration card with the new course number for the winter term. I provided her with contact information for Mt SAC's Child Development Center along with the start and end dates for the Winter and Spring 2015 terms per her request. I also informed her that Winter/Summer are the best times to try an secure a spot in the CDC. She is hopeful that she will be back in January.
