## Athletics

Mt. SAC has one of the nation's largest and most successful sports programs for men and women; serving over 800 athletes a year. It is vital that student-athletes are supported on the field and in the classroom.

Coaches require their athletes to attend a minimum of two hours per week of study time in the WIN Program. WIN provides coaching staff with weekly, monthly, and semester updates on grades and attendance. The program gives careful consideration to students' academic, practice and work schedules.

The goal of the WIN Program is to ensure that student athletes complete the mandatory general education requirements within a two year period in order to successfully transition into a four-year institution.

## Counseling

The Counseling and Matriculation Department delivers essential counseling services to the diverse population of student athletes. The department is committed to meeting the specific needs of student athletes. Athletes have a five year time-line in which to complete specific academic requirements while maintaining athletic eligibility. Counselors, together with the WIN Program staff, collaborate by empowering student-athletes in making logical and critical educational decisions, and providing them with timely and accurate information.

## Adult Basic Education

The Mt. SAC Adult Basic Education program is where students of all ages can earn their high school diploma, get a G.E.D., get help with the California High School Exit Exam, gain computer skills, take parent education classes, or obtain services such as counseling, mentoring, or career development.

Students may utilize any of the support services offered through the ABE Center such as the ABE computer lab.
