

KINETIC ART:

CREATIVITY THAT MOVES

Led by: **Melissa Macias**, Professor of Fine Arts

Inspired by the famous Japanese Archer Automaton and other *karakuri* puppets, this workshop will explore a simple mechanism of movement to **make our own kinetic artwork**.

Participants will make their own art by choosing an animal that is culturally significant to them.

Date

March 26, 2025

Time

12:30–1:30 PM

Location

Multicultural Center
Bldg 410 Room 2030
