- Public comment:
 - Maya Alvarez Galvan read the following comment:
My name is Maya Alvarez-Galván, and I am a member of the English, Literature, and Journalism department. I am here with you today to ask you to begin a very important conversation within the Senate. I want you to discuss calling for a vote of no-confidence on this president. Let me explain why I am asking you to do this.

As a result of the pandemic and negotiations for the past few years, I have a complete lack of confidence in our administrative leaders. First, our president did not respond in a timely manner to protecting the faculty, staff, or students. He stubbornly insisted on keeping the school open when so many other schools throughout California were choosing to put the safety of people ahead of all other considerations. The English department along with other departments wrote letters to HR, the President, and the Board pleading with them to do the right thing and close the school for the safety of everyone involved, but they did not listen. It wasn't until he was pressured by Superintendent Hilda Solis, who incidentally was contacted by an English faculty member, and then Governor Newsom closed down California that Scroggins went along with their directives. Thus, our president never made the decision to protect the faculty, staff, and students. Someone else made it for him. Second, once the faculty took on the herculean task of switching to an online format, President Scroggins continued to nickel and dime us during negotiations. He refused to increase our health benefit unless we went to his preferred provider SISC even though he has given ALL other bargaining units a raise. What does it matter who our provider is? His insistence on us moving to SISC makes me wonder if he is benefitting personally by shifting the entire campus to SISC. We voted on staying in CalPERS, yet he refuses to honor that decision. He is in essence holding an increase in our health benefits hostage until we do his bidding. It is mind boggling that during a GLOBAL PANDEMIC that he would continue to jeopardize the health of his employees in order to save money and to force us into a health provider that we do not want.

I have been teaching at Mt. SAC for 19 years. I was a new hire the last time one of our presidents lost our confidence. As an untenured faculty member during that time, I did not get involved in the politics. Now, however, I feel we need to take a stand against what I see as unequitable treatment and policies that have put our health in danger. Getting those emails indicating that two people had tested positive while working at Mt. SAC was enough to prove to me that our health was in danger by keeping the school open despite overwhelming medical evidence that we needed to close. Please start this conversation so that we can weigh the merits against the costs of taking such an action. I do not want to go into this decision quickly or without fully understanding all that it will entail. I am particularly concerned about retaliation, but I don't think that should stop us. In this moment, I can't help but think of Emiliano Zapata's words: "I would rather die standing than live on my knees." Now is the time to take a stand. We need to make this decision as a group to express how utterly betrayed we feel. Thank you for your time.

- Eva Rios-Alvarado shared that Library is offering a new 30-minute, research consultation service. Free and live for the Mt. SAC community. You can find more here: <http://mtsac.libcal.com/appointments>.

- Dianne Rowley shared that ASAC tutoring now have live tutoring available for Math and English students.
