courses that meet requirements of curriculum.

***Lead:** Danny Cantrell

What would success look like and how would you measure it?:

Computers would be upgraded in classrooms, projectors would be upgraded in classrooms

Type of Request: FACILITIES: This section includes minor building improvement projects and alterations to specific rooms or operational areas.

Planning Unit Priority: High

In Progress - Communication Building

***Describe Plans & Activities**

Supported (Justification of Need): A dedicated Speech Communication building would allow us to tailor spaces to the pedagogical needs of our department. Currently, rooms are not configured to support student success in speech. In particular, the "box" in the middle of the front of classes in the 26 building for technology to plug into creates a tripping hazard for student speakers. Additional space is needed for forensics, the SSSC, and faculty offices.

***Lead:** Danny Cantrell

What would success look like and how would you measure it?: A

building designed to work with communication classes would be constructed.

Department

***Describe Plans & Activities**

Supported (Justification of Need):

Access to a photocopier & scanner in the communication department (perhaps in a remodeled lobby area) would assist the department in scanning documents to speed up sending documents (such as adjunct evaluation forms) to the division office. It would also assist forensics coaches in making copies of work for students and assist faculty in photocopying papers. Currently, many faculty simply print 30 copies of materials in the adjunct area requiring constant replacement of toner.

***Lead:** Danny Cantrell

What would success look like and how would you measure it?: A photocopier would be installed in communication department.

Closed Captioning Software and Computer

***Describe Plans & Activities**

Supported (Justification of Need):

Speech faculty often show videos for students to see demonstrations of high quality speeches. However, the need to show closed captioning videos is limiting our ability to show videos. A dedicated, powerful computer that has the closed captioning software needed, is needed to meet the needs of our department.

***Lead:** Danny Cantrell

What would success look like and how would you measure it?: A new computer with appropriate software would be purchased.

Planning Unit Priority: Medium

Request - Full Funding Requested - Clickers for students to use while presenting

***Describe Plans & Activities**

Supported (Justification of Need): Students who are using PowerPoint to present visual aids during their speeches need clickers to effectively transition walk and meet curriculum requirements of SPCH 1A. These clickers allow students to advance slides without needing to stand at the computer.

***Lead:** Danny Cantrell

What would success look like and how would you measure it?:

Sufficient clickers would be purchased to provide one to each Full-time and Part-Time faculty member.

Planning Unit Priority: Low

Request - Full Funding Requested - Teleprompter for ASL students to use while speaking

***Describe Plans & Activities**

Supported (Justification of Need): Currently, students are encouraged to use Notecards while speaking to promote extemporaneous delivery. However, as more ASL students have been taking our classes, we have realized this is not an appropriate memory device. Mobile teleprompters that could be moved to accommodate ASL students are

***Describe Plans & Activities**

Deaf students are unable to effectively use note cards while enrolled in SPCH 1A making it difficult to teach extemporaneous delivery. Teleprompters would also be helpful for forensics students to memorize their speeches along with students in various classes who can practice speaking with a teleprompter.

In Progress - Larger space for SSSC

***Describe Plans & Activities**

The four computer stations are almost always in-use limiting the usefulness for students.

Funding to host Forensics Tournaments

***Describe Plans & Activities**

Supported (Justification of Need):

Throughout the year, the Communication Department sponsors speech and debate tournaments to be held here at Mt. SAC. In prior years, these costs were absorbed by events services. However, starting in 2018, these costs have been passed on to the Department. While the number and size of our events varies each year, we anticipate hosting at least 4 large tournaments per academic year. If the cost remains roughly what it was in 2018-2019, this is approximately \$7,500 to use the facilities, pay for custodial, and event services staffing. Thus, the department is requesting a budget of at least \$30,000 to host events each year. Tournaments including the Fall Championship tournament, the middle school championship, the readers theater nationals, and potentially a college invitational speech tournament. We would anticipate the size and number of tournaments to vary each year and would request a stable budget so we can plan one to two years in advance.
