Under direction of the College President & CEO, the College shall develop and maintain Information Security Standards which outline the procedures to safeguard the campus technology infrastructure. Such sensitive, personal, or otherwise valuable information may be maintained by, or at the direction of, the College. These Standards shall be aligned with state and federal law, the College's Mission Statement and Goals, and based upon best practices, such as the California Community College Information Security Standards. The intent is to ensure compliance with relevant state and federal laws including, but not limited to, SB1386, GLBA, FERPA, HIPAA, and the California Public Records Act.

The College's Information Security Standards shall be reviewed annually by the Chief Technology Officer and the Information Technology Advisory Committee to provide recommendations and updates to the College President & CEO.
