INFORMATIONAL REPORTS

Administrative VP Mike Gregoryk updated the trustees on Gov. Brown’s state budget proposal and how his recommended $400-million revenue reduction could affect Mt. SAC and other community colleges statewide. Gregoryk presented three scenarios that factored in certain assumptions (revenue from a $10 fee hike, Prop. 98 funding, growth fund offsets, etc.). The net reduction for Mt. SAC, based on these scenarios, could range from $3.6 million to a worse-case reduction of $18.1 million. Gregoryk indicated that Mt. SAC was in a good financial position to manage the lowest-impact scenario, but not the higher net reductions. Staff and faculty will be asked, once again, to offer cost-cutting ideas.

Financial Aid Director Susan Jones presented a report on The Aid Success Project – Aid Like a Paycheck program. The program was designed to help students think about college much like a job by disbursing incremental grant payments in ways that may help students budget and manage their funds more effectively. It also aims to reduce the likelihood of students spending financial aid funds too quickly and dropping classes or cutting back on study time to work additional hours. Mt. SAC was the only college selected to participate in the Aid Like a Paycheck pilot for the fall semester.

Jones also reported the following:

• Funding to all students in all financial aid programs increased from 2007-08 through 2009-10 by nearly $18 million dollars (83.7%).
• The percent of federal student aid applications received and processed by Financial Aid increased by 10,822 (61.5%) from 2007-08 through 2009-10.
• The Mt. SAC loan default rate has remained below 10% since 1997.
