• Approved proposed revisions to Board Policy 2410 – Policy and Administrative Procedure.

**INFORMATIONAL REPORTS**

Dr. Scroggins provided commentary on the draft recommendations of the California Community Colleges Student Success Task Force. The task force was convened to examine strategies and develop recommendations for promoting student success, including the student assessment process, delivering remedial instruction, increasing academic counseling and using technology to help students achieve their goals faster. Trustee Baca is a member of the task force. The task force recommendations include improving degree, certificate and transfer rates and strengthening college readiness. Under the recommendations for strengthening support for entering students, Dr. Scroggins stated that common centralized diagnostic assessments do have advantages for students attending multiple colleges and for consistency of preparation. However, he suggested that the assessments should be available and aligned but not required, especially for those colleges like Mt. SAC that already have college-specific and successful assessment plans in place. While a proponent of outcome- or performance-based funding, Dr. Scroggins noted that now may not be the appropriate time to implement such a strategy. During its discussion of the task force recommendations, the board decided to delay taking a position until the recommendations are further revised by the task force. It was also suggested that a “town hall” type meeting be held on campus to solicit additional input from Mt. SAC employees. Earlier in the board meeting, several faculty members (particularly from the Learning Assistance Center) presented their views on the current recommendations and asserted that a one-size-fits-all approach in assessing remedial education, in particular, does not work across the community college system.

Meghan Chen, Dean of Library and Learning Resources, presented the closing report on the federal Title V Hispanic Serving Institutions Grant. For the past five years, a team of faculty members, managers, and staff implemented the grant to address acute needs among students at Mt. SAC. Among the many accomplishments: counseling services were expanded to include online counseling; online new student orientation was enhanced; and online tutoring was implemented. In addition, several learning communities were supported via the grant, including English Bridge, Transfer Bridge and Reading Bridge. The Writing Center experienced tremendous growth and effectiveness over the past two years. Student use of tutoring, workshops and the computer lab, plus the new Directed Learning Activities, all saw dramatic increases. For example, tutoring increased significantly, from 279 students in fall 2007 to 1,986 in spring 2011.

**INTRODUCTIONS**

**Newly Hired Staff**
Classified
• Robin Cash, Learning Lab Coordinator, Learning Assistance Center
• Ana Cruz, Building Automation Technician, Energy Services
• Shawn Pepper, Horse Trainer, Natural Sciences Division
• Sarah Phipps, Laboratory Technician, Chemistry, Natural Sciences Division
• Heather Rains, Veterans Services Specialist, Financial Aid
• Corina Reyna, Secretary, Admissions & Records
