Program Overview

Welcome

The Nursing Department at Mt. San Antonio College is a two-year program designed to prepare individuals at the Associate Degree level for entry into registered nursing practice. The California Board of Registered Nursing approved the program. Most recently, the program has received accreditation from The Accreditation Commission for Education in Nursing (ACEN). Licensed Vocational Nurses and Psychiatric Technicians are eligible to pursue advanced placement into the degree track earning an Associate of Science Degree in Nursing.

After graduating with an Associate Degree in Nursing (ADN) and becoming a Registered Nurse (RN), you can work in a wide variety of healthcare settings, including hospitals, nursing facilities, clinics, doctor's offices, home health agencies, and even as a travel nurse.

<u>General Education</u> for Cal-IGETC (UC/CSU)

Mt. San Antonio College
INTERSEGMENTAL GENERAL EDUCATION TRANSFER CURRICULUM (IGETC) 2023 - 2024
The courses listed below will fulfill the lower division general education requirements for all UC campuses.

Completion of the IGETC will permit a student to transfer from Mt. SAC to a campus in either the University of California (UC) system or California State University (CSU) without the need, after transfer, to take additional lower-division general education courses to satisfy university general education requirements. It should be noted that completion of the IGETC is not an admission requirement for transfer to UC or CSU, nor is it the only way to fulfill the lower-division general education requirements of UC or CSU prior to transfer. Students pursuing majors that require extensive lower-division preparation may not find the IGETC option to be advantageous (i.e. Engineering, Sciences).

<u>A minimum grade of "C" is required in each course.</u> (A grade of "C-" is not acceptable.)

NOTE:
UC limits transfer credit for some courses. Students may review the UC Transfer Course Agreement (TCA) with a counselor or educational advisor
