7. Performs skilled plumbing work in the alteration, installation, maintenance, and repair of plumbing fixtures and systems to maintain plumbing lines in safe and sanitary working condition; ensures compliance with building codes applicable to the plumbing trade.
8. Installs, maintains, and repairs valves, control devices, pumps, toilets, water heaters, pipes, faucets, and various other fixtures, parts, and equipment; maintains clarifiers

and grease pit interceptors and upkeeps waste manifests; rebuilds and replaces valves and faucets as needed; replaces leaking and defective parts in plumbing fixtures and systems.

9. Installs, tests, and maintains all types of plumbing equipment, including drains, water heaters, garbage disposals, valves, regulators, gas fuel-burning appliances, water and gas lines, sewers, flush valves, fixtures, swimming pool pumps and filters, fire sprinkler equipment, and hydrants.
10. Cleans out drains and removes obstructions from water and sewer systems, dishwashers, disposals, pumps, toilets, urinals, and drinking fountains; inspects and repairs leaks and general system failures; repairs or replaces damaged pipes, tubing, and sewer lines; installs, tests, and maintains backflow devices.
11. Facilitates collaboration and coordination with municipalities to ensure water source delivery; coordinates planned/unplanned outages.
12. Serves as a point of contact for inspections with state and county officials.
13. Oversees outside contractors performing plumbing maintenance and repair services to ensure completeness and accuracy.
14. Operates a variety of specialized equipment, including excavation equipment, forklifts, scissor/boom lifts, snakes, valve exercisers, gas detectors, pipe threaders, and various hand and power tools; drives a vehicle to perform work.
15. Inspects facilities and buildings for damage and maintenance needs; recommends repairs as necessary.
16. Records and maintains labor and material records.
17. Observes safe work methods and makes appropriate use of related safety equipment as required.
18. Maintains work areas in a clean and orderly condition, including securing equipment at the close of the workday.
19. Assists other College employees with various projects, including carpentry, electrical, HVAC, locksmith, painting, and other trades.
20. Supports and complies with federal and state laws, Board Policies, and Administrative Procedures.
21. Provides quality customer service when interacting with the public, vendors, students, and College staff, including individuals from minoritized groups.
22. Participates on committees, task forces, and special assignments, including, but not limited to Screening and Selection Committees and affiliated mandated trainings, as required. Prepares and delivers oral presentations related to assigned areas if needed.
23. Works directly with people from various ages, disabilities, socio-economic levels and ethnic groups.
24. Maintains regular attendance.
25. Performs other related duties as assigned.

QUALIFICATIONS

Knowledge of:

1. Principles, practices, methods, equipment, materials, and tools used in plumbing maintenance and repair of College systems and fixtures, including plumbing codes.
2. Safe application, operation, and maintenance of tools and equipment used in the plumbing trade.
3. Basic principles and practices of providing technical and functional direction and training to assigned staff.
4. Applicable federal, state, and local laws, regulatory codes, ordinances, and procedures relevant to assigned area of responsibility.
5. Occupational hazards and safety equipment and practices related assigned area of responsibility.
6. Standard office practices and procedures, including the use of standard office equipment, basic record-keeping, and arithmetic.
7. Safe work practices, including safe driving rules and practices.
8. English usage, spelling, vocabulary, grammar, and punctuation.
9. Techniques for providing a high level of customer service by effectively interacting with the public, vendors, students, and College staff, including individuals of various ages, disabilities, socio-economic and ethnic groups.

Skills & Abilities to:

1. Plan and oversee activities of plumbing personnel.
2. Inspect the work of assigned staff and maintain established quality control standards.
3. Train assigned staff in proper and safe work procedures.
4. Identify and implement effective course of action to complete assigned work.
5. Negotiate water source delivery between Metropolitan Water District, Three Valleys Municipal Water District, and Walnut Valley Water District.
6. Operate, repair, and support site gas and wet utilities.
7. Operate, repair, and support water treatment systems.
8. Perform a variety of complex technical tasks in the installation, repair, and maintenance of College plumbing fixtures and systems.
9. Perform basic preventative maintenance of equipment and tools.
10. Skillfully and safely operate a variety of heavy/light equipment and power and hand tools used in the plumbing trade.
11. Troubleshoot plumbing problems and determine materials, costs, and supplies required for repairs and maintenance projects; recommend purchases.
12. Interpret, apply, explain, and ensure compliance with applicable federal, state, and local policies, procedures, laws, and regulations.
13. Understand and follow written and verbal directions, instructions and safety rules, and procedures.
14. Maintain accurate logs, records, and basic written records of work performed.
15. Operate modern office equipment including computer equipment and software programs.
16. Read and interpret construction drawings, specifications, plans, manuals, diagrams, blueprints, and technical regulations.
17. Make accurate arithmetic calculations.
18. Operate a truck and observe legal and defensive driving practices.

19. Organize own work, set priorities, and meet critical time deadlines.
20. Communicate effectively through various methods.
21. Learn and apply emerging technologies and, as necessary, to perform duties in an efficient, organized, and timely manner.
22. Understand scope of authority in making independent decisions.
23. Review situations accurately and determine appropriate course of action using judgment according to established policies and procedures.
24. Establish, maintain, and foster positive and effective working relationships with those contacted in the course of work.

Education and Experience:

1. Equivalent to the completion of the twelfth (12th) grade; and
2. Five (5) full-time equivalent years of experience in journeyman level plumbing maintenance and repair work.

Desirable Qualifications:

1. A certification as a qualified plumber journeyman from an approved institution.
2. LA County Department of Health Services Backflow Tester License/Certification.

Licenses and Certifications:

The incumbent is required to drive to a variety of locations. This will require the incumbent to possess and maintain a valid California driver's license and proof of automobile insurance and maintain insurability under the College's vehicle insurance policy.

PHYSICAL DEMANDS

Must possess mobility to work in and around College buildings and facilities, to operate a motor vehicle and drive on surface streets; strength, stamina, and mobility to perform light to medium physical work, to work in confined spaces and around machines, to climb and descend ladders, and to operate varied hand and power tools and equipment; vision to read printed materials and a computer screen and hearing and speech to communicate in person and over the telephone or radio. The job involves fieldwork requiring frequent walking in operational areas to identify problems or hazards. Finger dexterity is needed to access, enter, and retrieve data using a computer keyboard or calculator and to operate above-mentioned tools and equipment. Positions in this classification bend, stoop, kneel, reach, and climb to perform work and inspect work sites. Incumbents must possess the ability to lift, carry, push, and pull materials and objects weighing up to 50 pounds, or heavier weights, with the use of proper equipment.

ENVIRONMENTAL ELEMENTS

Incumbents work in and around buildings and facilities and are exposed to loud noise levels, cold and hot temperatures, inclement weather conditions, road hazards, vibration, confining workspace, chemicals, mechanical and/or electrical hazards, and hazardous physical substances and fumes. Incumbents may interact with staff and/or public and private representatives and contractors in interpreting and enforcing departmental policies and procedures.
