Call History

The Call History application displays a list of your missed, outgoing and received calls as well as My Mobile and Missed calls. You can view, delete and dial out to call history entries as well as copy entries to the Contacts application.

Using the Call History application

1. Press the 🛛 🕸 key to access the Call History application.

- 2. Scroll through the lists by using the navigation keys. To view additional entry details, press the **Right** navigation key when the entry is highlighted.
- 3. Press the **Select** button or **Dial** softkey to place a call to the respective entry or

Press the Add Contact softkey to copy the entry to your Contacts application or

Press the **Delete** softkey to delete the entry from your Call History.

Voicemail

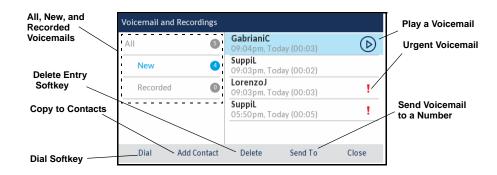

When voicemail functionality is enabled, the MWI LED on the Mitel MiVoice 6930 flashes

red and the o (Voicemail) icon displays on the status bar indicating that voicemail messages are available. You can access your voicemail service by pressing the **Voicemail** key

Visual voicemail

Visual voicemail enables access to voicemail system and displays a count of all, new and recorded voicemail messages.

Note: Voicemail and visual voicemail functionality must be configured by your System Administrator.

Enabling visual voicemail

1. Press the (Settings) key on the phone to access the Settings menu.

- 2. Navigate to Voicemail using the left navigation key and then press the Select softkey
- 3. Press the Select softkey to select the key opens Voicemail App checkbox.
- 4. Press the Save softkey.

Softkey

Note: For security reasons, the password can be enabled only from the user login screen.

Note: For additional visual voicemail functions, refer to the Mitel MiVoice 6930 IP Phone User Guide.

Advanced call handling

The Mitel MiVoice 6930 IP Phone provides a method for transferring calls through the **Transfer** softkey.

Transferring a call

- 1. Ensure you are on active call with the party you wish to transfer.
- 2. Press the Transfer softkey.
- The active call is placed on hold. 3. Enter the transfer recipient's number and press the **Transfer** softkey.

Creating a multi-party conference call

1. Ensure you are on active call with one of the parties with whom you wish to create a conference.

Use of the Trademarks is prohibited without the express consent from Mitel. Please contact our legal department at legal@mitel.com for additional information. For a list of the worldwide Mitel Networks Corporation registered trademarks, please refer to the website: http://www.mitel.com/trademarks.

Mitel's Power Over Ethernet (PoE) Powered Device (PD) products are covered by one or more of the U.S. patents (and any foreign patent counterparts thereto) identified at Mitel's website: www.mitel.com/patents. For more information on the PD patents that are licensed, please refer to www.cmspatents.com.

- 2. Press the **Add User** softkey. The active call is placed on hold.
- 3. Enter the conference target's number.
- 4. Wait for an answer, consult, and then press the **Join Calls** softkey to create the threeway conference call.
- 5. Repeat steps 2 to 4 to add an additional party (maximum of seven participants) to the conference.

Speed Call programmable key configuration

A **Speed Call** key allows you to dial a specified number with one key press. **Speed Call** keys can be useful as they can be programmed to dial directly to an internal or external number or quickly access features that use feature access codes. You can also transfer calls to or create conference calls using your **Speed Call** keys in place of dialing out manually.

Note: Configuring a programmable key using the press-and-hold method is only available if enabled by your System Administrator.

Programming a Speed Call key

- 1. Press and hold the applicable programmable key (for 0-5 seconds) until the **Label Name** field is displayed.
- 2. In the Label Name field, enter a label to apply to the key.
- Note: Use the ABC softkey to specify uppercase letters or lowercase letters when entering the label.
- 3. Press the down navigation key to move to the **Number** field and enter the number using the dialpad keys.
- 4. (Optional) Press the down navigation key to move to the **Private** checkbox and press the **Select** button to make the key a Private Speed Call key. When a Private Speed Call key is pressed, the call is considered private and caller ID information is not displayed in the phone's call history.
- 5. Press the Save softkey to save the information to the key you selected.

Note: Other features such as Phone Lock, Call Forward Always, Do Not Disturb, Mobile Line, and Account Code keys can be programmed using the press-and-hold method (if enabled by your System Administrator). For more information, please refer to the *Mitel MiVoice 6930 IP Phone User Guide*.

MobileLink feature

The Mitel MiVoice 6930 IP Phone supports MobileLink, a feature that provides seamless mobile integration using Bluetooth wireless technology. MobileLink highlights include the ability to:

• Sync your mobile phone's contact list and call history with your 6930 IP Phone.

- Answer a mobile phone call using your 6930 IP Phone.
- Move active calls between the 6930 IP Phone and your mobile phone.

MobileLink feature is supported only on iOS and Android mobile phones.

Note: MobileLink features are available only if your Administrator has enabled them. Contact your Administrator for details on how to enable MobileLink functionality on your phone.

Pairing a mobile phone using Bluetooth

- 1. Press the key, navigate to **Bluetooth** setting, and press the **Select** button or **Select** softkey.
- 2. Press the **Turn On** softkey to enable Bluetooth functionality. Ensure your mobile phone is discoverable as the Mitel MiVoice 6930 IP Phone automatically scans for available Bluetooth devices.

Note: For information on how to make your mobile phone Bluetooth discoverable, refer to the documentation provided with your respective mobile phone.

 When your mobile phone has been discovered, use the navigation keys to highlight the respective entry in the list of available devices and press the Select button or Pair softkey. A Bluetooth pairing request displays on both the Mitel MiVoice 6930 IP Phone and your mobile device.

| Bluetooth | | |
|-------------------|-------------|-------|
| Paired Devices | 📋 iPhone | |
| Available Devices | 📋 Galaxy S6 | |
| | | |
| | | |
| | | |
| Turn Off Pair | | Close |

4. Ensure the pairing code matches on both devices and press **Yes**

on the Mitel MiVoice 6930 IP Phone and acknowledge the pairing request on your mobile phone.

The Mitel MiVoice 6930 IP Phone attempts to pair the mobile phone and if successful, automatically attempts to connect to the mobile phone.

Note: If pairing or connecting fails, a failed error message displays on screen. Press Retry to attempt to pair or connect again, or Cancel to cancel the attempt.

 Press OK to acknowledge the successful connection. The connected mobile phone is added to the list of Paired Devices and is ready to use.

Syncing mobile contacts

The Mitel MiVoice 6930 IP Phone automatically attempts to sync your mobile contacts to the Contacts application upon pairing and connection.
