

# Mascot

|    | Familiarity with Joe Mountie | Opinion of Joe Mountie   | Familiarity with Mounties | Opinion of Mounties   | Name           |
|----|------------------------------|--|---------------------------|---|----------------|
| 1  | Very familiar                | Completely fine.   | Very familiar             | Completely fine.  |                |
| 2  | Somewhat familiar            | I personally am okay with our mascot. I have never had an issue  | Somewhat familiar         | I am okay with our moniker Mounties. I have build my teams core values around it  | Rubilena Rojas |
| 3  | Very familiar                | At this point, I'm fairly neutral, although I sat in on a graphic arts class sometime back and was impressed with some of the ideas they presented. I don't recall specifically anyone work that stood out, but imagined that the mascot could be tinker with.   | Very familiar             | I'm open to a discussion.   | Manuel Baca    |
| 4  | Very familiar                | Historical, depicts Mountie Joe after 75 years in existence. started as a young person and evolved into what it is currently.  | Very familiar             | depicts a shortened version of the Mountaineers, the original mascot of the school. I have no problem with it.it is unique and ties into our namesake Mt. San Antonio   |                |
| 5  | Very familiar                | Change is needed to remove symbolism that is not in line with present student body diversity.  | Very familiar             | Long history is significant in keeping the name while changing the mascot.  | Bill Scroggins |
| 6  | Very familiar                | I know he seems popular but he is growing into an outdated icon  | Very familiar             | I've grown use to it. But I still believe the name is about Canadian mounties.  |                |
| 7  | Very familiar                | I feel that he is not a very strong mascot. . Although it is different to all other mascots, I think it isn't very easy to rally behind him. He is quite boring, compared to mascots like UCI where they have the anteater. They have great school spirit for Peter the Anteater because he stands out as a unique mascot. | Very familiar             | I think that the Mounties moniker is alright. I wouldn't see a new mascot behind it though. No matter what you would add as the mascot, the moniker would remain "Blank Mountie." This would leave us stuck in the same predicament with the same mascot. | Hugo Fulcheri  |
| 8  | Very familiar                | I think he looks too old and feeble. My opinion, an athletics mascot should convey strength, confidence, and school spirit.  | Very familiar             | I would perfer the moniker Mountaineers, as it was when the college was established.  | Linda Lundgren |
| 9  | Very familiar                | I like the current Mascot.   | Very familiar             | It is part of the Mt. SAC Tradition. Like it or not... it is Mt. SAC's Mascot. I love a Platypus, but I don't think we should change the mascot to the Mt. SAC Platypus's   |                |
| 10 | Very familiar                | No issue with mascot but open to others perspective.   | Very familiar             | Would like to see the "Mountaineers" moniker utilized more. Mounties has been confusing at times and have heard negative connotations or plays on the word.   |                |
| 11 | Very familiar                | Oppressive symbolism of a Dominant, White, male, with a weapon is unrelatable to our students we serve   | Somewhat familiar         | Symbolism of Canadian Police is also insensitive to the students we serve   |                |
| 12 | Very familiar                | I can see that Joe Mountie isn't representative of the student body, the Mt. SAC Community or the broader community.   | Very familiar             | I do not have a strong opinion on the Mountie moniker.  | Bill Lambert   |
| 13 | Somewhat familiar            | Joe Mountie is touted as a "pioneer." The "pioneer" is one of the crowning figures of settler colonialism, and using this figure as a symbol of a college fails to recognize the genocidal project of the pioneers.  | Somewhat familiar         | See above. Any relation to this historical figure is problematic in the same way.   | Mary McGuire   |
