

# Section 2.1 Frequency Tables & Histograms

## Geometry of Classes

Distributional Thinking: (1) Center: Around 160cm  
 (2) Shape: mound (bell) but skewed to the right, (3) Spread: range = max - min = 36.1 cm.

Shapes

Bell Shaped (symmetric) → mesokurtic leptokurtic platykurtic

Flat

Non-symmetric (skewed) → skew right (positively) skew left (negatively)

uniform
