

# ATI TEAS®

## ATI entrance assessments give your program a head start on success.

ATI TEAS is specifically designed to assess students' academic preparedness entering health science fields. To ensure your program is admitting the best students, assess student preparedness before they set foot in your classroom.

ASSESS BASIC ACADEMIC  
KNOWLEDGE IN:

Reading

Mathematics

Science

English Language  
Usage

## Now you can know if your students are prepared.

The ATI TEAS assessment provides you and your students with the critical information they need to succeed.

TEAS tests the basic academic skills they will need to perform in class. By using these ATI assessment resources and exams, you will know the strengths and weaknesses of your students on the first day they attend class.

## Predict success

ATI assessment testing is a proven method of predicting future academic success. Based on years of data collected and analyzed by educators at ATI, we can help you quickly identify candidates with the best chances of staying in, and graduating from, your program.

## ATI TEAS is easy to implement and will give your program vital information about the state and trajectory of student achievement.

### TEAS PREPARATION MATERIALS INCLUDE:
