

Fall 2024

LIFE SCULPTURE - ARTS 41A

**MW 11:30am-2:50pm
CRN 21783**

Carolyn Alexander
instructor

Entry-level course sculpting the human figure

Work in clay from live models.

Valuable for sculptural and CG creature and character design, as well as designing and creating appliances and prosthetics for film and medical applications.

Working with the figure in 3D translates to more authentic figure drawing.

Life Sculpture ARTS 41A is a required elective in three categories of the Emphasis in fine Arts Degree:

- Sculpture
- Sculpture Special Effects Makeup
- Portrait

ARTS 41A Sculpture: Life covers human figure and portrait head modeling in clay which are three-dimensional skills that enrich the understanding and representation of human anatomy and the human figure.
