

Dear Student,

We hope this message finds you well. We'd like to inform you that after the **Spring 2026** semester, you have progressed to **CONTINUED PROBATION** in one or both of the following areas:

Continued Academic Probation: Your Mt. SAC cumulative grade point average (GPA) remains below 2.00; and/or

Continued Progress Probation: You continue to have 50% or more units of **W, I,** and/or **NP**. Excused Withdrawals (**EW**) do not count toward probation.

What does it mean to be on Continued Probation? How can we help?

- Your registration dates for **Winter/Spring 2027** will be delayed until you complete the **P2 Success Workshop** (in-person or zoom)*.
 - This workshop will help you understand how to return to Good Standing, how to appeal the loss of your fee waiver (CA College Promise Grant) and strategies to avoid dismissal.
 - Workshop registration information can be found in the **Probation Card** located on the **Student** page of your portal account.
 - Complete the workshop before Winter 2027 registration begins in September and your registration dates will not be negatively affected.
- You are limited to enrolling *4 units* for the Winter 2027 session and *12 units* for the Spring 2027 semester.
 - If you are an International Student, you may NOT take fewer than 12 units per semester.
 - If you are part of a priority group such as Athletics, EOPS and Veterans, you will no longer receive priority registration until you return to Good Standing and meet all other priority registration requirements. Your registration date will be determined by the number of Mt. SAC cumulative units earned.
- Counseling can help you make a success plan! Schedule your appointment by visiting the [Counseling](#) page.
- If you still have questions about your standing, email your Probation Success Team at probation@mtsac.edu.

*Need workshop accommodations? Contact [ACCESS](#) (Accessibility Resource Centers for Students) at (909) 274-4290.

PLEASE DO NOT CONTACT THE OFFICE OF ADMISSIONS AND RECORDS FOR ASSISTANCE.

Sincerely,
Dr. George Bradshaw
