Subject: Sincere Thank You's

All,

Thank you again for your involvement and contribution to this presentation and site visit! We heard so many positive things from the committee about Mt. SAC, our area and resources and the potential to host the Trials in 2020 and meets far beyond that date. They are looking for a venue in the LA Market and are excited about what we are all doing...they want to help us immensely in making this happen!

Appreciate all of your time and energy in this endeavor, it is worthwhile!

Joe
