**Subject:** Mt. SAC PPM

Hi Caryn

Good news! Jennifer with SCE has been able to offer us a new PPM due date of 9/27. Let's set up a call to discuss how we can work through our negotiation process in order to have a signed contract submitted to CSI by that due date.

Thank You

Kyle Manahan

Good morning Kyle,

If the PPM due date is extended out 60 days from the original due date, is that sufficient time to get a contract submitted to Powerclerk?

The due date would be 9/27.

Jennifer Kamphuis

Hi Jennifer

I'm reaching out to you on behalf of Mt. SAC. We are currently working with the College on their current solar project. The College is close to having a negotiated contract with Borrego Solar after a thorough procurement process. We will be uploading that contract when it is approved and signed. In the meantime, can the college submit a timeline of events that show the progress made to date on the solar project? The project is important to the College and the current schedule is on track to meet the final CSI construction deadline.

Thank you for your time and consideration. Please give me a call or email with any questions.

Thank You

Kyle Manahan, P.E.

Good morning Dominic,

I just sent the suspension letter for the Mt. Sac PPM. I need to update Powerclerk with the seller and installer info. Can you send it over to me please?
