Members of the Board,

The check is in the bank! The AC Martin award was \$1,475,994.74. This money will go into the Measure RR account. Our team did great work to secure these funds!

Please see the attached information. We received the \$1.4 million, which is the amount of the award less the fee earned by AC Martin but held and not paid. The arbitrator agreed with our assessment of what AC Martin had earned (85% of the construction administration phase).

I have asked Rosa to set up a special account tied to measure R or RR as per the direction we received from bond counsel last year. I recommend that we add the \$1.4 million to the measure RR program contingency.
