

Another B.S. Degree!

04/19/2017

Hello all,

I am thrilled to report that we are a few days away from submitting another Bachelor's program for Board Approval. This one is Southern Illinois University's Health Care Management degree.

Our Respiratory Therapy (RES) and Radiologic Technology (RAD) grads can complete it in as little as three semesters. Some students may choose to overlap the B.S. course work with their own last semester RES or RAD course work to shorten the time to completion even further! It's fully on line except for a two unit internship at a facility approved by SIU.

I can't tell you how happy I am about this. The only challenge I see on the horizon is: how we will accommodate all of these graduates at our Mt. SAC commencement ceremonies! That seems like a good problem to have!

Stand by for the contract!
