

Co-location with LA County WDB
7/06/17

Hi, Bill and Irene,

We were so into our conversation today that I didn't have a chance to check in with you about our desired co-location with LA County WDB. The Director and Assistant Director would like to meet with us (you, Irene, and SCE) before they start co-locating to make sure we have the same expectations and the same goals for them attending. Co-location is planned in Building 40.

Because you've had so much experiences with workforce boards, I wanted to see if you had any initial thoughts about co-location. This is a first for our college so we want to optimize the relationship. Our initial conversations include employer connection, program development (such as Proterra), and student recruitment. They suggested soft-skills but our counselors do that.

Anything else?

Thank you.
Madelyn Arballo, Dean, School of Continuing Education
