Subject: RE: Transition of ITT Students to Community College

Bill,

Thank you so much for your note and kind words. We are all terribly saddened and frustrated with the developments....beyond words....however we are trying to move forward and focus on the interests of the students. With that in mind we are grateful and appreciative of your interest to help the former students. This is a priority for us.

Gene Feichtner, our President and COO is handling all student transition matters and you can direct any additional questions or comments to me and him. In the interim we will add your school's name to the list of educational institutions that have expressed an interest in working with ITT Technical Institute students on transfer options.

We thank you once again for your interest in assisting former ITT Tech students and thank you for your patience with us as we work through a terribly unfortunate and complicated wind-down process

Best,  
Kevin

**Subject:** Transition of ITT Students to Community College

Mr. Modany,

First, my condolences on the closing of your organization. I have been in higher education for 42 years, and have worked with ITT Technical Institute campuses throughout California for many years. The closing of ITT is a loss for our country and its workforce.

That said, as the president of the largest single campus community college in California and a near neighbor to the ITT Campus in San Dimas, I offer our assistance to your students in continuing their education with us. Our CTE programs match very well those that are offered at the San Dimas ITT Campus.

Please let me know what our college can do.

Bill Scroggins  
President & CEO
