

**Review of Mt. SAC 2018 Educational and Facilities Master Plan  
April 26, 2017**

We're making great progress on the College's 2018 Educational and Facilities Master Plan! Drafts of the first two chapters are now available for your review and comment. There are two purposes for this review:

1. Conceptual review: Is there anything that should be added?
2. Factual review: Are there errors?

Please do not include grammatical, pagination, or format issues in your feedback. The final document will be carefully reviewed for these details.

The Master Plan Steering Committee reviewed the drafts of Chapters 1 and 2 in late March and this draft incorporates their feedback. The two draft chapters are:

Chapter 1: This background chapter describes the context in which this long-term plan is being developed. The chapter includes a brief review of the College's early history, a summary of the College today, and the national and state economy and higher education issues.

Chapter 2: This chapter is a data portfolio that includes an external scan, an internal scan, and projections for the College's growth.

These chapters are now posted on the Master Planning website [http://www.mtsac.edu/efmp/documents\\_to\\_review.html](http://www.mtsac.edu/efmp/documents_to_review.html) and are available for your review and comment. Please provide your feedback using the online [Feedback Form](#), also located on the Master Planning website.

Please submit your online feedback by **Friday, May 5**. If you prefer to send an email, please submit your feedback to Laura Martinez, [lmartinez@mtsac.edu](mailto:lmartinez@mtsac.edu), or you may submit your written response to Laura Martinez, in 4-2465.

Best regards,

Jeff Archibald, Irene Malmgren, Audrey Yamagata-Noji  
Master Plan Steering Committee Tri-Chairs
