

## **New Reviewers Recommended for Team Service from: College**

Peer reviewers should have demonstrated that they possess broad knowledge and perspective about an educational institution. They will have the skills and knowledge to engage in team work and to apply ACCJC Standards to institutional situations. Reviewers are expected to have the time to commit to team training sessions and the evaluation visit, be good listeners, good writers, and have a commitment to the peer review process. Individuals with experience in preparing the Institutional Self-Evaluation Report (ISER) for a college can bring great value.
