California Math Pathways Hub Planning Meeting
May 17, 2018
American River College
Sacramento, CA

Changes in California - including AB705, the Guided Pathways initiative, and an intensified emphasis on increasing completion – are putting new demands on community colleges with respect to mathematics education. A regional hub structure – one that establishes regional capacity and expertise in mathematics instruction and system support – has proven effective in addressing similar demands in other contexts. We wish to explore how a hub structure in California could help community college educators advance their goals. Specifically, we wish to identify the critical elements of a successful hub design and operation and how ARC, Mt SAC, and WestEd could work together to construct and sustain it.

Attendees

American River College	Thomas Greene, President Roger Davidson, Dean of Mathematics Michelle Brock, Math Faculty Cheri Jones, Educational Consultant for Innovation and Process Improvement
Mt San Antonio College	Bill Scroggins, President Matt Judd, Dean of Natural Sciences Scott Guth, Math Faculty
Carnegie Math Pathways / WestEd	Karon Klipple, Executive Director Ann Edwards, Director of Learning and Teaching Karen Miles, Partnership Director

Agenda

Entire Group

9:00 – 10:30   Introductions
                         Context Setting, Including Update on AB705 Implementation
                         Overview of Hub Approach
                         Identify CA Local, Regional, and State Needs
                         Establish Collective Goals

10:30 – 10:45   Break

Deans & Faculty

10:45 – 12:00   Identify Key Activities
                         • What services and supports do hubs provide?
                         • What services and supports do hubs need from CMP to be
                           successful?

12:00 – 1:00   Lunch

1:00 – 1:45   Construct Timeline
                         May – Dec 2018: Planning
                         Jan 2019 – Dec 2021: Development, Operations, and Improvement

1:45 – 2:15   Review Against Goals
                         • Are these activities sufficient for meeting our goals?
                         • If not, what's missing?
                         • What needs further elaboration?

2:15 – 2:45   Identify Resources Needed
                         • What resources are needed to enable these activities (e.g. staffing,
                           events, materials, incentives)?

2:45 – 3:00   Break

Entire Group

3:00 – 4:00   Review Progress & Identify Next Steps
