

February 8, 2018

Dr. Scroggins,

Congratulations!

8 students from Mt. San Antonio College have been accepted to the Honors Transfer Council of California (HTCC) 18th Annual Research Conference. Over 300 students from 40 California community colleges will be presenting their research at UC, Irvine on Saturday, April 7, 2018 and we invite you and your campus colleagues to attend the conference.

Your Honors Coordinator Heidi Lockhart and Honors Counselor Linda Diaz have done an exceptional job preparing these students and I commend your college for giving so much support to the honors program. Your college is consistently represented by stellar students at our annual conference. These students faced a very competitive application process and their abstracts were judged to be superior.

In addition to all the work they do on your campus, Heidi and Linda are invaluable members of the HTCC Conference team. Linda has served as our Treasurer and Registration Chair for our Conference for many years. Heidi serves as this year's Communications Co-Chairs for our conference. They have both worked hard to improve honors education for the more than 50 member colleges of the Honors Transfer Council of California and the thousands of students who attend those colleges.

HTCC Research Conference
Saturday, April 7, 2018
UC, Irvine Student Center
8:30 a.m. – 4:00 p.m.

Sincerely,

Jodi Balma
President
Honors Transfer Council of California
