VIDEO: Take a Helicopter Tour of the Foothill Gold Line and See 3D Stations and Local Points of Interest Along the Way

([click here](#) or above to play video)

In advance of this Saturday's historic groundbreaking ceremony for the Foothill Gold Line from Glendora to Montclair (see details below), the Construction Authority has released a 6-minute helicopter video tour of the rail corridor.

The video features 3D models of the future light rail stations in Glendora, San Dimas, La Verne, Pomona, Claremont and Montclair; and markers highlighting some of the points of interest located within a short walk, bike or bus ride from one of the future stations.
