

IMPORTANT NASA L'SPACE Academy Offer

January 24, 2019

I want to share this wonderful news about one of our ACES students.

Victor M. Rojas Jr., M.S.Ed.

Director | TRiO Programs

Congratulations! You've Been Accepted!

NASA Lucy Student Pipeline Accelerator and Competency Enabler (L'SPACE)

Hello Arturo Zaragoza

Due to a scheduling conflict with another student, we now have a spot available for **YOU** in our spring program. We are pleased to announce that **you have officially been accepted** into the NASA L'SPACE Academy's Level 1 Spring 2019 program. This program is designed to help you gain greater insight and skills in NASA mission protocols, procedures and practices as well as provide you an opportunity to work within an interdisciplinary, co-located team of students that are passionate about science and engineering.

As a member of this program, you will be expected to attend all weekly sessions and fully engage with an assigned team as you work to complete a space related project. Your full participation and engagement within your team is an essential component of this program. In addition to the 1.5 hour weekly sessions, you are expected to participate in team meetings and complete all assignments. The average amount of time expected to accomplish your tasks is between 6-8 hours per week.

L'SPACE Academy Student Benefits:

- Learn from NASA engineers and scientists;
- Increase your knowledge about NASA missions;
- Work with other dedicated and passionate students;
- Qualify to apply for Lucy Mission summer internships;
- Apply to become a Lucy Mission Ambassador.

Thank you,

L'SPACE Team
