Growth Strategies

Successful promotional tactics have supported the development and growth of the dual enrollment program. Mt. SAC continues to collaborate and partner with current and new school districts in order to expand the dual enrollment program as well as course offerings, including opening a Mt. SAC Early College Academy with Bassett Unified School District. This fiscal year, a dual enrollment medallion was provided to all graduating high school seniors who successfully completed a dual enrollment course, the medallion promotes an interest in the program as well as establishing a sense of accomplishment for current and future dual enrollment students. The dual enrollment team continues to work closely with Mt. SAC department chairs and division managers to support and expand the dual enrollment course offerings. The dual enrollment website promotes partnerships and provides information about the dual enrollment process.
