**Subject:** Follow up: Inland Empire/SGV CEO Roundtable on Economic Development

Dear Dr. Scroggins,

Thank you for joining us yesterday at the Sheraton Fairplex for our CEO Roundtable. As Aneesh Raman said, the Governor is actively seeking to engage inland communities in the important question of inclusive economic development.

Governor Newsom's *Regions Rise Together* initiative gives us a unique opportunity to model inclusive development for other rapidly growing areas in California and beyond.

I ask you to think about who on your team can continue this discussion, representing the strategic priorities of your own institution while also advancing the interests of our region as a whole.

Our goal should be to reconvene the principals of our organizations in September with Aneesh and/or Lenny Mendonca, Chief Economic and Business Advisor to Governor Newsom, and to share with them our most current thinking about an economic agenda and priorities.

Fairplex is pleased to serve as a host and convener of this discussion and will lean on our partners in the Inland Empire Economic Partnership and the San Gabriel Valley Economic Partnership along with the LA Area Chamber of Commerce and the LA Coalition for the Economy & Jobs to provide context and grounding in the economic realities of the region as these conversations develop.

Walter Marquez, Fairplex's VP of Finance and CFO, will be our designate on this project as we move forward. Walter can be reached at: [wmarquez@fairplex.com](mailto:wmarquez@fairplex.com) (909) 865-4203

Please connect directly with Executive Assistant Evelyn Garcia de la Cadena and let her know who from your team will be representing your organization. She will follow up on scheduling and next steps. Evelyn Garcia de la Cadena Executive Assistant [egarcia@fairplex.com](mailto:egarcia@fairplex.com) (909) 865-4211

We look forward to collaborating closely in the coming months.

Miguel
