

Registration Open and Pre-Work Available

Connecting the Dots: Data-Informed Integrated Planning

This workshop will give your college a running start by providing information on how to leverage the new Student Success Metrics dashboard and—with support from data and planning experts—offer a structured space to align this information with your college's plans. You will receive guidance on how to integrate initiative-specific activities into your college's comprehensive plan, learn how to orient plan objectives around student outcomes, and hear from participants at other colleges about their strategies for attaining the *Vision* goals.

Workshop outcomes include:

- Understand the Student Success Metrics and where to access information
- Examine how the Student Success Metrics align with the Student Centered Funding Formula, AB705, the Student Equity and Achievement Program, the Strong Workforce Program, the Adult Education Program, and Guided Pathways
- Learn how to use tools like student journey maps and logic models
- Initiate drafts of your local *Vision* goals

Workshop Schedule

Click each city for full details and registration.

Participants are asked to complete the [pre-work linked here](#) prior to the workshop to help achieve intended outcomes.

Sacramento: February 11

Hilton Sacramento Arden West

Los Angeles: February 13

Renaissance Los Angeles Airport Hotel

- CIOs, CBOs, CSSOs
- Faculty Leadership
- Curriculum Committee Chairs
- Workforce Deans

- Financial Aid Deans
- Student Services Deans
- Enrollment Management Deans
- Admission and Records Deans
- Institutional Researchers
- Information Technology Staff
- PIOs

Connecting to the Vision

How does data-informed integrated planning help you and your college align with the *Vision for Success* core commitments?

- Focus relentlessly on students' end goals.
- Always design and decide with the student in mind.
- Foster the use of data, inquiry, and evidence.
- Take ownership of goals and performance.
