

Release Funds for Voter-Approved Facilities Projects

Fund California Community College Facilities Projects

Background

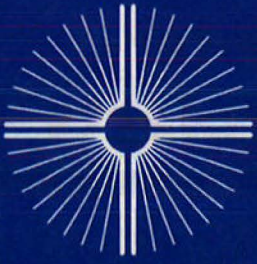

In 2016, California voters approved a facilities bond providing a \$2 billion infrastructure investment in community colleges. However, the State Budget act has failed to include funding for approved projects, creating a backlog of nearly 60 projects. Our community colleges require \$42 billion in infrastructure resources over the next 10 years with \$29.9 billion in unmet facility needs identified in the current Capital Outlay Plan. Failure to fund these capital projects is a missed opportunity to create jobs and to cultivate a skilled and educated workforce in communities throughout the state.

The Right Economic Decision

Waiting to approve worthy projects will increase the costs of voter-approved projects. Further, funding all 14 projects is only 20% of the total bond authority granted by Proposition 51.

Our Request

Communities statewide voted to fund essential capital projects to provide access to critical academic services and workforce education programs. Now we ask California elected leaders to deliver on their end of the deal by funding the approved community college projects.
